This is an Educational and Inspirational Course of Study dealing with Interplanetary subjects. It is especially written and intended for NEW AGE Individuals everywhere. The following SEVEN lessons are included in this special study:

1. "COMMUNICATING WITH VENUS"
2. "THE COSMIC PLAN REVEALED"
3. "CHOSEN BY THE WISE ONES"
4. "YOUR GRADUATION FROM EARTH"
5. "YOUR MAGIC LIFE ON VENUS"
6. "VENUSIAN SECRET POWERS"
7. "THE BEINGS BEYOND VENUS"

\* \* \* \* \*

Statements in this Course are based on Scientific and Super-Sensory Findings. No claim is made as to what the information cited may do in any given case and the Publishers assume no obligation for opinions expressed or implied herein by the author.

SPECIAL ATTENTION

YOU, the NEW AGE Individual, having purchased this Course, are known to me. In addition to the unusual and important instruction to be found in the Course itself, another most valuable service has been bestowed upon you.

YOU have been placed within my personal circle of AURIC PROTECTION and ILLUMINATION. Neither space, time nor distance can hinder this beneficial influence from acting constructively for you and accomplishing its GOOD work in your life. This positive power is effective NOW.

As you study this Course, be conscious of great waves of LIFE, LOVE and LIGHT radiating now from me to you. Visualize the Life wave Vibrating as a beautiful azure blue color; the Love wave as radiant rose pink; and the Light wave as a brilliant golden yellow.

These living forces of my AURIC CIRCLE will enfold you henceforth by night and day. Though invisible to ordinary physical sight, these forces are nonetheless real and in time you will come to see them spiritually. Nothing can break this uplifting, revivifying auric connection except disbelief or your personal desire not to have it.

I bless you now with the faith of the Shining Ones, and the healing virtues of God's everlasting LIFE, LOVE and LIGHT

MICHAEL X  
Seer of the New Age

## AUTHOR'S FOREWORD

"VENUSIAN SECRET-SCIENCE" is unlike anything you have ever studied before. This is due to the fact that it comes to you from another world, that exceedingly beautiful and mysterious planet VENUS... our own "Sister Planet" and "Evening Star".

As you study this Course, you will discover how my mind gradually became a "channel" for communication with advanced VENUSIAN beings so that the SECRET-SCIENCE they had developed could be transmitted to all Earthlings ready to receive it.

This wonderful Science was developed by far wiser beings than I, and is not the result of one or even a dozen brilliant minds. Many THOUSANDS of human minds concentrated together on Venus, under the direction of the Lord Thinkers, to produce a "Super-Science" for the good of all humankind everywhere.

Three basic principles--LIFE, LOVE and LIGHT--are the positive essentials or "foundation" of their wondrous Science. Upon these three principles all of the "super-structure" of their SECRET-SCIENCE was built. When was this GREAT WORK begun? Not yesterday, nor last year, nor even 1,000 years ago.

"VENUSIAN SECRET-SCIENCE" was discovered, formulated and designed into a workable system THIRTY-THREE million years ago, and it has never failed to do the marvelous things it was intended to do from the very beginning. For this good and noble reason planet Venus has become a POSITIVE world. Those beings fortunate enough to live on Venus at this moment are so ALIVE, so LOVING, and so INTELLIGENT they are far in advance of us Earthlings. Indeed, the people of Venus are among the most ADVANCED beings in this solar system. However, you will be pleased to know that such positive progress is a part of GOD'S PLAN FOR ALL MANKIND everywhere!

*note*  
This means that in time to come (and that time isn't far off for it IS later than you think!) our own planet Earth will blossom forth with a NEW GOLDEN AGE far surpassing anything Earthman has yet known. But always, the Elders of Venus will be far ahead. They started earlier and as a natural consequence have

learned more about GOD'S UNIVERSE and THE COSMIC PLAN.

The Venusians, however, cannot reach down and lift us by our "bootstraps" into a higher consciousness and a more perfect life. At all times they will INSPIRE and ENLIGHTEN those who seek their aid, and most of this good work is done by THOUGHT PROJECTION to Earth students who have prepared themselves to receive it.

Of course, this is an exceedingly wonderful advantage to sincere NEW AGE men and women. We can, through wise guidance of Cosmic Teachers, speed up our mental and spiritual evolution tremendously!

The Course you are about to study is intended by the Lord Thinkers of Venus to serve as a dynamic stimulus to your TOTAL MIND as well as SOUL. New horizons will be opened up within you with each new lesson, so that your mental vistas will expand and a glorious new REALIZATION of Life, Love and Light will form itself inside your soul.

I recommend that you make it a point to read and re-read the lessons three or more times over a period of the next three months. You will realize best results if you enter into this fascinating study with an open mind, and a positive, constructive view. Many "jewels" of wisdom and much "rare wine" of secret knowledge awaits you herein. Do not let your good elude you by blocking it with doubts or negation of any kind.

In order to increase the benefits and value of this study, each lesson is followed by several questions which those who want to make a thorough study of these teachings should try to answer for themselves after they read the text of the lesson. By doing this, you will become a deeper thinker, will derive greater benefit from these teachings, and be better able to uplift others who have not yet found the HIGHER LIFE.

This Science may at first seem strange to you. That is to be expected. However, the "strangeness" will soon vanish as you become familiar with its marvelous principles and apply them in your own life.

Be diligent, and you will attain. In these pages you and I will TRAVEL TOGETHER on the positive UPWARD PATH leading to the stars. It will be a magnificent adventure. Take my hand and let us begin!

## COMMUNICATING WITH VENUS

### Lesson 1

THE PLANET VENUS IN CRESCENT PHASE

hidden knowledge and valuable instruction will be given you... often in quite strange and, yes, mysterious ways; but always at THE TIME when you need guidance most...."

(from the final page of "FLYING SAUCER REVELATIONS")

Little did I know, when I wrote the above words to you, just how prophetic they were to become with the passage of time. I could not realize then, that my own mind was destined to act as a CHANNEL for minds far superior to mine.

These new "adventures" began for me shortly after my first successful attempt at "Space Telepathy" in which I had contacted mentally a living human being--a complete stranger to me--who informed me that he was a citizen of planet Venus. The astonishing details of our conversation convinced me of one simple fact. Whoever this mysterious stranger was, he had access to a universal wisdom which the Earth has failed to recognize. Surely a wisdom like this, entrusted to the right people on our own Planet, would prove a great boon to humanity here. And it would aid the higher forces of Venus.

At the conclusion of this first communication, my super-intelligent communicant from Venus gave me definite instructions as to WHEN and HOW I would hear from him again.

"When you next become aware of a certain sound, vibrating in the key of "D", you will know I am seeking to contact you again. It will be a soft, bell-like note of an unusual, penetrating quality. Watch for it on the morrow,  $\frac{1}{2}$  hour after sunset. I shall then explain many seeming mysteries, and banish whatever doubts you may now have regarding me."

With these words our communication ceased and I could hear his voice no longer. I looked closely at my watch and saw that it indicated 3:00 A.M. We had been in "mental rapport" for one hour, yet it seemed like only a few moments. A confusion of thoughts occupied my mind. Had I been dreaming so vividly as to believe this astounding experience was real, or was it possible that some new and great scientific principle, heretofore unknown and unsuspected by Earthlings, had been demonstrated? The more I thought about it, the more baffling it became. Finally, exhausted as I was from tossing this thought about in my mind, a deep and comforting sleep overpowered me and I slept for many hours.

Awakening the following morning from my sleep, I found myself feeling unusually refreshed and invigorated. All of the events of the previous night standing out clearly in my mind. I have never prided myself on having an exceptionally good memory, yet oddly enough, I could recall with the greatest ease and clarity every word and idea presented to me by my mysterious friend whose dynamic mental waves had reached me from the wondrous and beautiful planet Venus.

Immediately, I set to work transcribing on paper all of the important information the "Venusian" had conveyed to me. This was accomplished speedily and entrusted to my loyal Secretary for safekeeping, and perhaps publication later. I now began to realize, more than before, how remarkable were the mental communications I had received. At the same time, I wondered what the being who had conversed with me by "Thought-Transmission" between his world and mine, was really like.

However, a few hours would tell, and though I looked forward with great eagerness to the promised interview that very evening, I busied myself as best I could with the day's work. After all necessary activities of the day had been duly performed, I got into my car and went for a drive to the nearby hills of Santa Barbara. Just in case you might not be familiar with this lovely little city, let me hasten to say that it is one of the most beautiful beach and mountain resort towns in all the world. Industry has not besmogged the air of Santa Barbara. It's still fresh and pure and vitalizing, the way the Creator intended it to be.

Few towns on the California coast have developed such a wholesome, peaceful spirit as this one. Good music, all the fine arts and wonderful culture flourish in Santa Barbara. Yes, it's indeed a beautiful town. Fabulous trees, flowers, and lush green vegetation thrive in the semi-tropical climate. For these and other good reasons I settled here some years ago; and to my mind it is still the same wonderful "Garden of Eden" that it was when I first "discovered" it!

As I drove towards the mountains, I had no particular destination in mind except to find as peaceful a spot as possible from which to make my second "mental contact" with the Venusian. Our next communication by Telethot was scheduled to take place only a halfhour from now. Somehow it seemed to me that the most suitable place for telepathic communication would be some point high in the hills overlooking all of the city. There I could find the essential seclusion and quietude so necessary for success in any telepathic test.

At the foot of the hills lies old Santa Barbara Mission --one of a whole chain of such Missions founded by Father Junipero Serra back in the early Spanish days in California.

From this famed landmark in Santa Barbara, I turned my car from Los Olivos Avenue onto Mountain Drive. I drove in a relaxed manner, slowly and carefully wending my way up the mountain road. In a few minutes, "Mountain Drive" branched off into another road called "Los Canoas". This road led up in the direction of a very secluded Monastery owned and built many years ago by the Franciscan Fathers. It was known as "Mount Calvary Retreat House", and had been originally selected by the fathers as an ideal location for long periods of peaceful meditation on the Christian mysteries.

Intuitively then, I sensed that I should continue in the direction of the Retreat House, and that before I got to the summit where the Franciscans were located, the perfect spot for "Telethot" would be found.

Los Canoas road led me to a small signpost. It indicated that I should now follow "El Cielito" road, and it would lead me in the direction I wished to go. This I did, and was soon gratified to see an ancient, weather-beaten rustic sign pointing towards the Retreat House which was only  $\frac{1}{4}$  mile further up the winding mountain road. By this time, the sun was just gone below the horizon. Quickly I turned onto the  $\frac{1}{4}$  mile road leading upward, searching carefully as I drove, for the best place to stop. The higher I went, the more beautiful the scenic view became; and the quieter and more ideal the atmosphere seemed.

About 500 yards from the Mount Calvary Retreat House I came to a natural lookout spot just off the road. From this vantage point close to the summit of the mountain, one could see the peaceful green valley below. The entire Santa Barbara countryside--beautiful as a dream--stretched out for miles to the south. Above me, like a shimmering silver disk, hung the moon...the brightest planet in the sky. Venus, our "Evening Star" was clearly visible also.

I pulled my car onto the mountain ledge and got out to walk around. This was certainly an ideal spot for mental communication; there weren't any signs of life for a considerable distance. The view from this height was awe-inspiring, but what impressed me most was the utter stillness here. It was so quiet as to seem almost "hallowed ground", the serene stillness broken only by occasional sounds of birds. How truly wise the Franciscan monks were to have chosen such a perfect location for their Retreat House!

I climbed onto a large, smooth rock, sat down and looked at my watch. Six Twenty. I had ten minutes. There was a little time yet to think over the situation. If all went well, another scientific "miracle" was soon to occur. From another world 26,886,000 miles distant, the thought waves of a most extraordinary human being were to contact my mind. A new and illuminating conversation would take place between us that might very well transform my life!

This remarkable being on far away Venus must have some vitally important purpose behind these communications with me. Some grand purpose was undoubtedly being served in this unusual fashion, but as yet it was a mystery. Perhaps with the making of this new contact I'd get an explanation for that mystery and learn the real purpose of my communicant. By nature I am a practical soul, not given to over-credulity, hallucinations, nor somnambulism. However, my previous "conversation" with the Venusian had as much sense of reality to it as any long distance phone call I'd ever received from my personal friends in Los Angeles. Telepathy between Worlds seemed by no means beyond the realm of possibility, and if...

I cut my musing short to glance again at my watch. Time had passed rapidly. It was Six Twenty-eight. Any moment now.

All was intensely quiet. Not a sound anywhere around. I relaxed in the warm breezes of the California evening air and looked upwards to the bright and lovely planet Venus.

Then I heard it! A pulsing, vibrant musical chord in the key of "D". How beautiful and melodious it was, with an ethereal quality about it that made it strangely different from

any musical sound I have ever heard on Earth. It seemed to vibrate with unusual overtones that at once relaxed me in the most wonderful manner. All my tense expectancy vanished and I waited calmly for the voice of the Venusian teacher.

"My greetings to you Michael, and to all my Brothers and Sisters on planet Earth!"

His voice was vibrant with an earnest feeling, and every word had a pleasing "velvet-smooth" quality about it. I felt highly elated. This was the same remarkable personage with whom I had conversed at length in the early hours of the previous day. Now I knew that our communications were real and that Telethot between planets was completely feasible, though I did not yet understand the principles governing it. I joyously returned the greetings to my Venusian friend. He seemed very pleased to hear my voice. Again he spoke.

"First of all, Michael, I want to thank you for your sincere belief in me and my world. It was your faith in my promise to again contact you this evening that has brought our minds together for this important meeting. You are wondering who I am and what my real purpose is in communicating with an inhabitant of Earth. These are natural questions and I shall answer them now. As I revealed to you in our last conversation, I am a human being similar in basic structure to your people on Earth, with certain modifications as you will discover in due time. I am known on my planet as Lon-Zara, Keeper of the Lifetronic Flame. My special work here has to do with the purifying, healing and rejuvenating of those people of Venus who have not yet attained to a higher state of adeptship. You should know that there are numerous levels of mind here, just as there are on Earth. Yet even the lower grades of mentalities here are remarkable, and would be considered "brilliant" if contrasted to the minds of beings on certain other planets in our solar system.

"My purpose in contacting you tonight by Telethot is two-fold; One, to assure you that we of Venus are Godly people, having discovered some millions of years ago our relationship with the Father-Mother principles of creation in the universe. We have discovered that One Power rules the entire Cosmos and this Power is always interested in how the human race is progressing in its divine unfoldment. We serve the higher interests of your planet as well as our own. Some of our people are living on Earth now, yet they have seldom been recognized as being anything other than your own "fellow Earthlings" . . . Our mission is to provide an "awakening stimulus" of a spiritual nature to the minds of those whom we contact, and to direct them onto THE PATH. But I don't want to confuse you with too many details so soon. Simply put, my purpose

*not*

is to unfold to you and to all your sincere friends and students on Earth, the basic truths of our "SECRET-SCIENCE" of Life, Love and Light. This great knowledge will not be given to you all at once. Each time we are in "mental communion" you shall have increased in understanding, so that more of the "Science" can be transmitted to your mind and soul. At the proper time, when we are sure you can handle and direct certain unusual forces within you, you will be entrusted with SOUL-POWERS as yet undreamed of by your people.

"These powers, used by higher-minded Earthlings, shall serve to usher in the COMING GOLDEN AGE wherein your Planet shall blossom forth at last with startling new SPIRITUAL powers that will inaugurate the regime of enlightened SOULS.

"My second purpose in contacting you, is to reveal to you the working principles of Telethot (MENTAL RADIO) and of Menta-Vision (MENTAL TELEVISION) in order that our future mental communications shall be more perfect and enjoyable.

THE MAGIC OF  
MENTAL RADIO  
& TELEVISION

On Venus, the science of telepathy long since has superseded all other means of "Thought Communication", and has become so simple and commonplace that other methods now seem crude.

At this point in our SOUL EVOLUTION we are born with positive telepathic powers. We inherit telepathy now, just as earthmen inherit a particular temperament or character or physical prowess. It is easier and more effective for us to PROJECT THOUGHTS than it is to speak words.

"Therefore, while many of us can and do speak audibly, we consider it a backward step and prefer to use the natural faculty of Telethot and the power of Menta-Vision by which it is possible for intelligent human beings to "commune" with one another on every humanized planet in our solar system!"

At this point Lon-Zara paused, sensing my question. I had in mind asking him HOW the human brain operates so as to make such amazing transmission of thoughts a reality. However, to my astonishment, my Cosmic Teacher (for such I now realized was true) answered me before I had even consciously framed my question into a complete idea.

"TWO Primal forces exist in the universe." he said. "In total aspect they make up THE ONE POWER that runs all of the Cosmos, and animates all the intelligent beings therein. One of these forces is known as VITICITY, the other is known as ELECTRICITY. Scientists on earth are familiar with this second force, but are totally unaware of the existence of a first force: VITICITY. Whereas Electricity is an expression of PHYSICAL energy, the force of Viticity is an expression of MENTAL energy. One is the power of matter and the other is

the power of MIND. Which of these two is superior?"

"Viticity, or the power of MIND is superior," I answered at once. "I have always believed that intelligence has supremacy over matter, and can mold it to any desired purpose. In fact, we have a commonly recognized saying on Earth to the effect that psychic phenomena is due to 'Mind over Matter'."

"That is indeed true," said Lon-Zara. "It is MENTAL POWER that rules the entire universe; and it is this same unsuspected force of Viticity that is utilized by us to TRANSMIT OUR THOUGHT IMAGES through vast reaches of space to any human being anywhere in the universe! Space and distance offer no barriers to the dynamic power of Viticity. It is essential, however, that the person who wishes to "receive" Telepathic messages be able to "attune" himself (or herself) to the proper mental wavelength. Also, the intensity of vitical power used in "transmitting" one's thought is very important. In order to make these vital points much clearer to you, I shall now project from my brain into yours, a larger VOLTAGE OF VITRONS. These "vitrons" are tiny units of vitical force. A vitron is opposite in polarity to an electron which as you know, is a tiny unit of electrical force. Notice the effect!"

A split second later, an astounding thing happened. I began to SEE with my "inner eye" in a most vivid manner, and in FULL COLOR! Before, only my psychic faculty of "distant hearing" had been actively functioning for me. NOW I could see and study whatever scenes came into my mental focus. At this moment I could not get a view of my Teacher Lon-Zara. Evidently he was not yet ready to show himself. I consoled myself by thinking that very soon I might have the privilege of seeing him; and with my hopes high began to observe the IMAGE that was now appearing on my "mental screen". I found it most unusual and enlightening.

"I see a diagram of the inner workings of a human brain." I remarked as soon as I was calm enough to continue. "It reveals the position and function of man's Pituitary and Pineal glands, the PSYCHIC organs used for Telehot and Menta-Vision!"

Lon-Zara was pleased. "Splendid!" he said. "Now if you will follow the diagram as I direct, (see Diagram No. 1 at top of next page) I shall reveal to you exactly HOW your brain is able to produce the remarkable phenomena of TELETHOT and MENTAVISION. At birth, Nature automatically provides every human brain with a built-in "Mental-Television" set. Why? Because only by means of this natural communication equipment is man enabled to achieve mental attunement or rapport with all other intelligent minds ANYWHERE in the universe! An electric current (a flow of electrons) passes unimpeded through the earth,

and a vitic current (a flow of vitrons) passes unimpeded through the ethers of space... almost INSTANTLY.

"This wonderful faculty for 2-way THOUGHT COMMUNICATION is truly one of the greatest gifts God bestowed upon Man. Of course, just as with any of man's other faculties, the power must be developed by active exercise if it is expected to be of the greatest service and value to him. TELETHOT and MENTA-VISION are New Age faculties that will open up glorious new vistas for those Earthlings who will develop them. Ignorance will be forever banished, for with these faculties all beings are capable of SEEING, HEARING and TALKING to one another via "Mental Television". This means that mental communion of mind to mind, from planet to planet (Earth to Venus, Venus to Earth, etc.) from Teacher to Pupil irrespective of space or distance, is not only being accomplished NOW but will be a REALITY for many more sincere Earthlings in the New Age, the GOLDEN MILLENIUM just ahead!"

"In the Diagram, small figure 1 indicates your THOUGHT RECEIVER, or in anatomical terms, the Pituitary gland. This is the contact point within your physical brain that enables you to RECEIVE the thought-waves of others from any distant point on Earth or from some other inhabited planet. Figure 2 in the diagram designates your "Vitronic" or THOUGHT PICTURE SCREEN. It consists of optic nerve cells especially designed for forming mental images. When this area of nerve cells is energized during sleep you have DREAMS, usually in black and white and sometimes in full color. Now we come to the third essential part of your built-in "TV set", namely the THOUGHT TRANSMITTER. This is your Pineal Gland (figure 3). It is the positive contact point whereas the Pituitary gland is the negative contact point or "terminal".

"Figure 4 shows the cerebellum, which is the main organ of the Subconscious mind. Notice how the small arrows, indicating VITRONS, flow upward and across to the Pineal gland, then into the "Picture Screen" thereby energizing it. Some of the tiny vitrons flow into the Pituitary gland where the Ego or Self of the individual resides. The self then interprets the MENTAL IMAGES created by the vitrons, as specific visual messages complete with COLOR, SOUND, and other sensory stimuli. Notice how vitrons follow a path into the MENTAL

Diagram No. 1 (anatomical)

TV SET through the cerebellum (Subconscious) and complete a "circuit" by flowing out through the cord of the cerebrum (fig. 5) or Conscious mind. Venusians have discovered that the more VITRONS one is able to "store up" or accumulate within the cerebellum or Subconscious organ of the brain, the easier one can TRANSMIT thought images through space. TELETHOT requires much fewer vitrons than does MENTA-VISION.

"I shall now give you FIVE simple rules that will aid you in perfecting yourself MENTALLY so that you will be able to receive further communications from me telepathically with even greater ease and effectiveness.

"RULE 1. To send or receive mental messages, the most important step is to learn to consciously RELAX so that your Conscious mind does not hinder nor interrupt the process of attunement. 10 Or 15 minutes before attempting to send or receive telepathically, assume a position of physical relaxation in a comfortable chair. You should be in a secluded place where you are not likely to be disturbed. You may then close your eyes and breathe deeply and exhale slowly until a peaceful, soothing state is experienced. Do not, however, allow yourself to go to sleep. You want to be near the sleep state but still consciously aware. Midway between your Conscious mind and your Subconscious mind is a balance or "neutral zone" wherein you are consciously in HARMONY with the activities of your Subconscious. This area or neutral zone in which the Conscious and Subconscious minds act together is known as the SUBLIMINAL STATE. This must never be confused with the "unconscious state", nor with the "trance state". It is more like a deep REVERIE wherein your Conscious mind is NOT UNCONSCIOUS, BUT IS SO CONCENTRATED upon the disclosures being made to it by the Subconscious mind as to be oblivious, at least partially, to its immediate surroundings. In this SUBLIMINAL STATE, your Conscious mind may enter into and become attuned in VITIC vibration with the mind of another person on Earth or on another Planet, and thus acquire KNOWLEDGE from the Subconscious mind or Intellect of that other individuality. Practice then, entering the SUBLIMINAL STATE.

"RULE 2. After entering the subliminal state, maintain it throughout the process of telepathic communication. A Lapis Linguis or Telolith psychic gem should be held in your hand as an aid in "stepping up" the psychic attunement of your mind and body. It will also serve to focalize and intensify the higher thought vibrations you are seeking to contact; and this will keep your Conscious mind from descending below the SUBLIMINAL STATE into the "trance" or "somnambulant" state. In due time, none of these physical aids will be necessary either to enter or sustain the desired state, for your mind will grow

more skilled in telepathic work through daily practice. The performance of Telethot is a "mastered science" to men and women on Venus, but is still a new and strange art to Earthlings. Therefore practice is most essential to you.

"RULE 3. Arrange definite times to send and receive telepathic messages among one or more close friends, who are sympathetic and understanding. Persons who are close to you in affection and who like to cooperate with you, are best. Be careful who you talk to about these matters. Although the faculty of Telethot is now gaining recognition by your scientists of Earth, there are still many people who scoff at it through ignorance. Their ridicule might lower your self-confidence so it is wisest to go about this vital practice as quietly and as carefully as you can. As to the best hours for practicing Telethot, the quiet hours of night or just after daybreak are best. People are most relaxed at these hours hence are most impressionable telepathically.

"RULE 4. To TRANSMIT your mental messages to another, it is essential first to "fix" your Conscious mind earnestly upon the particular person (either upon the Earth or Venus) with whom the mental correspondence is desired. Also try to mentally see or VISUALIZE him in his usual environment. The secret here is to form in your mind a large hollow tube or tunnel and picture the other person as appearing at the far end of the tube while you are at this end. Now formulate your thought with as much precision and definiteness as possible. It will help at first if you will write down a simple message clearly and have it in sight to refer to. The name of the person you are sending your thought to, should be used freely to "attract" his attention. Immediately after his attention has been attracted and mental attunement achieved, you will at once recognize the attunement by a peculiar mental reaction. You will feel "connected" mentally. It sometimes happens that a vivid mental picture of the person is seen, and the sound of his voice heard distinctly. These are real phenomena of the mental senses and become more pronounced as you awaken these long dormant faculties. As you sit facing the other person, focus your attention just above and between his eyes. His "receiver" or Pituitary gland is located at that point. Assume a positive, affirmative state of mind and speak the words you wish him to hear. Visualize each word as traveling from your "transmitter" (Pineal) down the hollow tube to the receiver. Emotionalize each word by seeing it AFLAME WITH BLUE FIRE as it leaves your mind. The more vivid you make your message the more vital it will be.

"RULE 5. To RECEIVE telepathic communications, you are to drop the positive and directing attitude which is required for "thought transmission", and should instead adopt a passive

and receptive state, with the SUBLIMINAL-mind acutely sensitive. In this condition, not only will your clairaudient sense of hearing (Mental Radio) begin to function more clearly and distinctly; but frequently the clairvoyant sense of inner sight (Mental TV) will momentarily become activated, causing you to see an actual physical "image" of the person you are communicating with. It is a good idea to jot down all words, sentences and messages that come to you, in a private notebook as soon as you receive them. Do this as soon as you return from the subliminal to the fully conscious state of awareness.

"And now I bid you put these five rules into practice at once, so that during the next week you will have prepared yourself mentally to sustain longer "conversations by Tele-thot" with me, one week hence at the location where you now are, and at the same hour. I shall then unfold to you many more fascinating secrets of our universal science. Till then, Michael X, may Life, Love and Light be with you!"

SPECIAL NOTE: The theme of this first lesson suggests the following important questions:

1. What are the two reasons why Lon-Zara wished to contact Michael X? State briefly.
2. Why do you think vocal speech between human beings is considered a "backward step" by the Venusians?
3. Which of the TWO primal forces--Electricity or Vitality--is the superior force?
4. Which primal force is used to transmit thoughts? Pineal gland
5. Why does Mother Nature equip every human being at birth with a built-in "Mental Television set"?
6. What is the name given to the "neutral zone" midway between the Conscious mind and the Subconscious mind?

Subliminal state

## THE COSMIC PLAN REVEALED

### Lesson 2

I did not hear from Lon-Zara again until a full week had elapsed. However, I made use of every chance I could get during this time to practice the FIVE RULES of mental communication according to the instructions given me. All my close friends were "enlisted" to aid me in my various experiments at sending and receiving thought vibrations. Use of the Telolith (psychic gem) helped us to transmit stronger vibrations and also pick up vibrations more quickly. We made the whole thing as much of a "game" as possible, and I believe this feeling of enjoyment increased our sense of confidence and satisfaction. All of us noted a definite increase in our telepathic powers by the time Sunday had rolled around.

Sunday morning I rested and conserved my mental energy for the next "interplanetary conversation" with my Venusian teacher later in the evening. There were so many important questions to ask him about, so many long-hidden mysteries I wished to understand. Did the wise beings of Venus really know the answers to Life's puzzles? Did they discover keys to knowledge which have long been veiled from Earthlings? Could this knowledge, if they cared to reveal it, could it be used by men and women on Earth to transform themselves and thereby assist the higher evolution of the Race?

Of one thing I was certain. Lon-Zara was no ordinary being. A vast intelligence of an extremely high order was his to direct upon any subject of either a mundane or super-mundane nature. I determined that if man be permitted by the higher powers to learn all the answers, surely Lon-Zara, with his advanced mental powers would have gained a knowledge of THE COSMIC PLAN of the universe. He would surely know why mankind is embodied in physical form on various planets, and what the purpose of man really is, where he is going and most important...HOW to successfully arrive there.

Thinking along this line, I walked over to my library bookcase and passed my hand idly over the many esoteric volumes I've collected over the years. My intention was not to do any heavy reading, but merely browse through the books in hopes of uncovering something of especial inspirational value to put me in the proper mental vibration for my evening telepathic visit with Lon-Zara. Strangely enough, none of the books held much appeal to me, for the first time in a long while. I decided to replace the books in the case and go for a long walk. Then I noticed the object on the floor. It was a sheet of paper, quite yellowed by age. Oddly, I'd not noticed it before. It must have fallen out of one of

the old books I'd purchased recently at one of the Occult Book stores in town. Quickly I reached down, picked up the sheet of paper and was pleased to discover that it contained a typewritten poem, entitled:

### LIFE'S PURPOSE

"Forth from planet unto planet  
You have gone and you will go.  
Space is vast, but we must span it  
For Life's Purpose is to KNOW.  
Earth retains you but a minute;  
Make the best of what lies in it  
Light the pathway where you are.  
There is nothing worth the doing  
That will leave regret or ruing,  
As you speed from star to star.  
You are part of the beginning,  
You are parcel of today;  
When he set his worlds to spinning  
You were flung upon your way.  
When this system falls to pieces,  
When this pulsing epoch ceases  
When the "is" becomes the "was",  
You will live, for you will enter  
In the Great Creative Center,  
In the All-Enduring Cause!"

At the bottom of the page I read that the poem had been "dictated from the other side of life" by the wonderful and loving soul of Ella Wheeler Wilcox, and taken down by Bessie Warren in Chicago, Illinois.

The more I read the poem over the more it revealed to me. Here was a tremendous spiritual revelation of MAN'S COSMIC JOURNEY stating clearly that you and I and all mankind have gone "forth from planet unto planet" in this Solar System. So far in our journey we have reached planet Earth. But where did we start from? And how did we find our way to this particular world? What planet do we go to next? How can we be sure of getting there "on time" as it were? These were some of the vital questions that immediately flashed into my mind as I pondered over the poem. Trusting that my Cosmic Teacher Lon-Zara, would shed new light on these important matters at our next appointment, I glanced at my watch for the time. Five forty-five. Time to be on my way.

I drove to the same location near Mount Calvary Retreat House, where Lon-Zara had previously contacted me by mental telepathy. It was as quiet and peaceful as ever, and not a disturbing element anywhere in the vicinity. Wonderful! Ten

brief minutes to relax myself, and once again I would have the great joy of conversing with a living, thinking, highly intelligent human being who was millions of miles distant. I looked forward to this next communication with Lon-Zara, and with good reason. He radiated such a positive, uplifting spirit of love it was like a "healing treatment" just to be in the presence of his vibrations. Few Earthlings have ever developed love to this positive degree; and those who have truly discovered and demonstrated the power of the heart as a spiritual force in man are on THE PATH to immortal heights!

Lon-Zara's signal came softly but with powerful insistence. The same exquisite chord in the key of "D". It flooded through my being like sunlight through an open doorway.

"Good evening Michael X!" came the clear velvet-soft voice of the Venusian teacher. "It is good to be with you again mentally, even though we are separated physically by a great spacial gulf between your planet and Venus. However, if you remain steadfast and devoted in your attention to the instructions that shall be given you from now on, you shall be taught how to overcome the seeming barrier of space in several other ways. I perceive that the light within your "mental television set" is glowing brighter tonight. That is an indication of progress, showing that your brain is now magnetizing and utilizing more vitrons than formerly. This progress will continue, until a time in the very near future when you will be able to see clearly at any distance. You will then have your clairvoyant power under full voluntary control at all times. Until that stage of development is reached by you, I shall assist from time to time by sending a larger supply of vitrons from my brain to yours."

"Thank you kindly, my wondrous friend," I replied with deep feeling and appreciation. "Already you have helped me to unfold my telepathic powers by your extraordinary teachings and example, and I am indeed grateful. You have a most effective way of teaching. Simple, practical and to-the-point, yet presented always with understanding and love so that I feel imbued with the confidence, courage and strength to master even greater secrets of the universe!"

I was about to mention the poem I had found, but did not have to. Lon-Zara had read my mind. He spoke quietly.

"That poem, 'Life's Purpose', which you found today under rather mysterious circumstances, was directed to you for a special reason by the Lord Thinkers of Venus. It was a most effective means of stimulating your mind in regard to THE COSMIC PLAN. It raised questions in your mind which must be answered in order that you and your loyal friends

may enter into a new state of consciousness and an ampler state of being. Then you shall be able to grasp the secret principles of LIFE, LOVE and LIGHT whereby all former limitations will speedily pass away as if they never existed, and you will know at last something of your glorious destiny.

As Lon-Zara said these words, I suddenly felt a tremendous wave of vitrons surge into my body and through my brain. The sensation was powerful, dramatic, intense. Yet I was at the same time aware of an exceedingly blissful, peaceful emotion that was harmonious and delightful. My own "Mental TV Set" had been energized into activity by the amazing mental force of a being some twenty-six million miles away! Once again a picture flashed into focus before my mental vision.

"This new Diagram you now see on your Mental Screen is a representation of the great solar system in which you and I are now citizens," Lon-Zara explained. (see Diagram No. 2 on page 19) "We on Venus have learned things about this solar system, its planets and inhabitants that may well seem unbeliev-

able to you, nevertheless what I am about  
YOUR MARVELOUS to relate is true in principle. The story  
COSMIC JOURNEY we have to tell began eons ago. You are  
not asked to believe, only try to under-  
stand. That is the important thing. And in order that you  
may more easily comprehend this great story, I shall tell you  
about yourself--where you first began your "Cosmic Journey"  
and how you reached planet Earth where you are now living.  
As I unfold this story gradually, you will soon perceive the  
WHY of human life and the definite pattern of your own life.

"If you will now follow the Diagram closely," my Venusian master said, "and proceed with me planet by planet as I outline, we shall make a mental tour of our solar system and, as we progress with this story please feel free to ask me any questions that may come to your mind. With a subject so vast as this, I am sure you will have many good questions. I may not have time to answer all your questions in full detail, for as you can realize we have much SPACE to span during this brief lesson. Certain details can be added to your mind later on, after you have learned the main points."

Seeing that I was eager to begin "traversing the solar system" with him mentally, Lon-Zara began his story.

"Eons ago, long before our solar system was born, the Supreme Mind or Father God who dwells upon the Supreme Sun (See "A" in Diagram) at the center of the universe, decided to manifest Himself in many life levels within His universe. One of these manifestations was in the form of living beings, a higher form of which was the HUMAN BEING or MAN.

"The Seven Spirits or Sacred Planets Before the Throne"

"Man, however, (this includes both sexes) could not be evolved suddenly and without some grand pattern that would assure his development in a definite and positive manner. In order to provide a 'perfect pattern' for Man, the Supreme Mind first created a great planetary system--we call it a solar system--out of the Cosmic Dust (electrons) in space, He called this creation the GRAND MAN because it is actually the original pattern for the development of our own physical human bodies! (See Diagram 2, page 19)

"An ancient law tells us, 'As above, so below'. We see how this law applies here, for the solar system or GRAND MAN contains seven great planetary powers. Thus it is called the MACROCOSM or large Universe. In the case of Man, we find that his body contains seven principles which correspond perfectly to the qualities built into the seven planets. Of course this is true on a miniature scale so Man is considered to be the MICROCOISM or small universe, with access to all seven of the COSMIC QUALITIES represented by the seven Sacred Planets of the ancients."

*Mab*  
THE SEVEN  
COSMIC  
QUALITIES

"Master," I said, "Would you list those seven COSMIC QUALITIES so I may remember them?"

"The QUALITIES are listed on the Diagram," Lon-Zara replied, "but it will do no harm to impress them upon your mind by repeating them here. They are: (1) Life, (2) Beauty, (3) Power, (4) Light, (5) Love, (6) Joy, and the final and seventh Quality - (7) Peace. )

"Then," I concluded, "Man is in reality a Seven-Fold being, living in a Seven-Fold planetary system for the purpose of unfolding each of the Seven Cosmic Qualities?"

"Yes," answered the Venusian, "these are Qualities of the Divine Spark or Spirit that is in you. Your Great Cosmic Journey from Planet to Planet gives you an opportunity to build all seven spiritual qualities into your soul."

Calling my attention once more to the Supreme Sun (A) as shown on the Diagram, he continued. "Your Cosmic Journey began originally at 'A', where you were sent forth on the Out-going Life Wave as a spiritual spark or 'virgin spirit'. By this term, 'virgin spirit', is meant simply that you did not as yet have any consciousness of 'matter'. In fact, you were then in a state of dreamless sleep, having no 'self-conscious awareness' of any kind. To gain a state of 'waking consciousness' so that you would consciously REALIZE the virtue of all seven Cosmic Qualities and learn to embody them in a SOUL and in a PHYSICAL BODY, was the reason for your Journey. The awakening of the soul within one's self is supremely important.

"On the Outgoing Life Wave you, together with several billion other virgin spirits, quickly reached the lesser Sun of this solar system. ('B') As you will notice by observing the 'KEY' to the Diagram (page 19) our Sun is referred to as the 'Throne'. The seven planets indicated with a gray tint in the Diagram, are called the 'Seven Spirits before the Throne'. These seven planets are, Vulcan, Mercury, Venus, Earth, Mars, Jupiter and Saturn."

"Why are planets 1, 2 & 3 (Pluto, Neptune and Uranus) not included with the other seven?" I asked.

"These three planets serve to evolve life in its three elemental or primary stages only," Lon-Zara explained. "The self-conscious or higher stages of Human evolution take place on planets 4, 5, 6, 7, 8, 9, and 10. When the Solar Logos or Lord of our lesser Sun, relayed the Outgoing Life Wave to Planet 1, your life in matter began. However, it was a very simple form of life for you were not yet ready to build a complex body in which to function.

PROGRESSION  
FROM PLANET  
TO PLANET

"In due time your spirit progressed to Planet 2, Neptune. There you learned to build a new life form better than the one you had on Planet 1. It was not a complex human form, but you were gaining valuable 'basic training', and would soon be fully prepared to build your human etheric body. On Planet 3, Uranus, you successfully completed your evolution in elementary life forms and were now ready for advancement to beautiful and radiant Saturn, which is Planet 4.

"Then," I said, "according to the COSMIC PLAN we would find no human beings living on Uranus, Neptune and Pluto?"

"There are no people from your particular Life Wave in human form on those three planets," replied the Venusian. "You must realize, however, that a great number of different Life Waves have been sent out from the Supreme Sun, and it is true that those beings of an advanced Life Wave are able to travel to any planet in our solar system if they so wish. The wise ones do not choose to remain on such planets, for the simple reason that human life is vastly superior and infinitely more desirable on the more ADVANCED worlds."

"How is such interplanetary travel accomplished?" I inquired. "That is, must an advanced human being use a SPACE SHIP of some kind in order to transport his physical body to another planet?"

"Fortunately for Man, the sphere of the mind of each individual reaches to the stars and beyond. It reaches as

far as his or her power of PERCEPTION reaches. We on the planet Venus, for example, by the exercise of our clairvoyant and clairaudient powers, may at any moment know what is going on in another world such as Earth. And, if we desire to come into personal contact with it, we leave our physical forms on Venus and go out in our etheric bodies. If we desire to take our physical forms with us to your planet or an other, then a third method of travel is employed. That is, space travel by Flying Discs, or other kinds of Spacecraft. Often we hover in a disc near the Earth, and descend unseen in our etheric forms. We visit whomsoever we want, and witness every thing without our presence being perceived. We visit the statesman, the minister, the philosopher and writer; we infuse our thoughts into their minds which are useful, and they do not know from whence those thoughts come. If their fixed opinions and prejudices are very strong, they may reject our thoughts; but if they are reasonable people and know how to discriminate, they will follow the silent advice and profit by it. Many a problem of Earth has been solved in this manner and in the near future of Earth many more will be solved.

"It is true," Lon-Zara continued, "that by setting a great amount of will-power into motion we might handle mankind as if they were merely automatons, and we could cause them to do what we please, while they would still imagine that they were following their own inclinations. But to do so would be against the rules of our planet and against the great Law, for the latter decides that each man shall be the creator of his own Karma, or destiny. We are permitted to advise the people--and give instruction as we are doing now--but we are not permitted to interfere with their freedom."

Lon-Zara again called my attention to the Diagram. "When you, as a progressive spirit, advanced to the planet Saturn with others of your same Life Wave, you began to build for yourself a new and highly complex form of body. It was an etheric (astral) body of a human being. This was also known as your "SOUL BODY". By this time you had awakened from your dreamless sleep state. You began to dream and picture vividly the PHYSICAL LIFE you longed to become a part of in order to complete your Cosmic Journey and learn the lessons of all the planets.

"After a long time on Planet 4, you traveled in your astral body to Planet 5--Jupiter. On this largest and most electrified planet in our solar system (except for the Sun itself) you brought the development of your Soul Body to the most perfect condition for entering into the next necessary condition of life, namely, self-conscious awareness in a dense PHYSICAL BODY! This great event was to occur on Planet 6, which as you will see, is the world you call MARS. When you awoke for the first time on Mars, in a physical body, the

half-way point in your Cosmic Journey had been reached. The planet Mars gave you your first experience in a human physical body, and the body you built for yourself was quite strong and vigorous. Since the predominating quality of Mars is power, primarily of a physical type, the people of Mars are physically very strong. They are great builders, and excel in engineering. Conditions on Mars are nearly identical with those of the Earth, and they are equally as favorable for material human life. All of the fertile plains and valleys of Mars are highly cultivated and thickly populated. Its vast system of ocean-lanes and great cities teem with commerce, and all the human pursuits and occupations which are common to the Earth prevail also upon Mars.

"But human life on Mars has little or no spiritual quality to it. For this reason, neither you nor your friends would wish to become a part of Martian life again. It would be very much like going back to see the place where you lived when you were a child. It is never quite the same, because YOU are not quite the same individual. You've evolved, grown up and out of that old life. True, it was a wonderful 'stepping stone' to assist you in reaching the place where you are today. But the purpose behind it all was to enable you to go onward, upward and reach a yet higher place tomorrow!

THE PATHS OF PURSUIT AND OF RETURN

"Under the natural laws which pertain to the solar system, the planet Mars is the kindergarten of human thought and knowledge. The planet Earth is the 'physical heaven' of Mars and the next advanced sphere of life; although Earth itself is but a primary grade in the great 'university' for human education. The planet Venus is the physical heaven of Earth, and the next higher succeeding grade in human advancement and progress. On the Earth (Planet 7) you first began the true awakening from your SOUL-SLEEP, by acquiring more 'light' or knowledge about the other and most important side of your nature, the spiritual self. Of course, the vast majority of Earthlings, those of the 'mass-minded' who are coming to the Earth for the very first time through a process of re-incarnation from Mars, are traveling the 'Path of Pursuit'. This means they are exceedingly busy pursuing the external knowledge that is gained by all kinds of STIMULATION of the five physical senses. This gives them knowledge of OUTER things."

"And the other Path," I inquired eagerly, "the Path of Return; who are traveling this Path and to what purpose?"

"New Age individuals of all ages, in all walks of life who are now actively seeking to KNOW THEMSELVES and their real relation to COSMIC LAW, and who have come to realize that the attainment of WISDOM is above mere 'getting', are the ones on

the Path of Return. They are the 'old souls' who have gone through many cycles of rebirth on Mars, then graduated from Mars to the Earth, and have re-incarnated in new physical bodies on Earth a sufficient number of times to have gained a great wealth of experience in physical life. Gradually they have converted that experience into WISDOM. Hence, the next planet they will advance to on their Cosmic Journey is Venus (Planet 8). Here, the predominating influence you will feel is the vibration of LOVE--not the love that is known on Mars nor even upon the Earth--but a spiritual force that will lift you to such a new and high level of consciousness as to enable you to reach your final goal much more swiftly.

"That goal," Lon-Zara said, "is to advance planet by planet from Venus to Mercury (Planet 9) and then to Vulcan (Planet 10) and thence to 'B', where you shall live upon the Sun itself. Yes, our Sun is a 'College in the University of Stars' and is inhabited - by the greatest beings in this solar system. They have no dense physical body, but possess a body constructed of what we call 'permanent atoms'. From these special atoms each being builds a SOLAR BODY capable of withstanding light vibrations thousands of times stronger than the brightest sunlight you have ever felt on the Earth. As you will see by the Diagram, humanity generally begins building the SOLAR BODY during incarnation on Venus, though some advanced Earthlings have begun the task while on the Earth. Sanat Kumara and several other great Lords of Venus completed their Solar Bodies during their life on Venus, and by doing so they became radiant, shining beings of mighty power. This took place millions of years ago, and is the real reason why our planet is called 'the home of the gods'. More commonly, an individual begins his Solar Body on Venus, continues the good work on Mercury, and finally perfects the Solar Body during his life on Vulcan. Then the ASCENSION is made in the glorious Solar Body to man's home on the SUN.

"Later on," my Venusian master concluded, "you shall learn why and how human life in the 'individualized solar body' is possible, and why the building of your Solar Body or 'Golden Wedding Garment' is so essential to your higher progress in this and other solar systems. Now, beloved brother, good night. Be at this same place tomorrow evening at 6:30 o'clock for further instruction and a pleasant 'surprise'. Till then, my blessings be with you and may you unfold in true wisdom!"

## CHOSEN BY THE WISE ONES

### Lesson 3

It was late in the afternoon. The sun, in a final burst of glorious orange color, was about to disappear once again behind the Santa Barbara hills. I looked longingly at the brilliant orb as if seeing it for the first time. Was the sun intended by our loving Creator to serve merely as a "heating stove" for this little Earth and its companion planets? Was it just a gigantic "hydrogen furnace" slowly consuming itself as it burns its supply of hydrogen fuel? Or could it be true that the SUN is a great and SHINING WORLD made brilliant not by flaming hydrogen gases, but rather by its own electro-magnetic radiance?

My Venusian teacher had stated that the sun of our solar system is inhabited by wondrously glorified human beings, the "graduates" of this planetary system. He had mentioned something of the Solar Body, that it was built of a more permanent electronic substance than our dense physical bodies are made of. And he had pointed out that the Solar Body was to be built by each of us gradually, over a period of several interplanetary incarnations. Also that it was a radiant LIGHT BODY, able to sustain the most intense solar light vibrations produced by the great SHINING WORLD (SUN)!

Life on Venus, then, was one mighty step nearer to our eventual HOME--the Sun--and it would seem that after we have perfected ourselves so as to take our place among the Sun People, another and greater goal would appear. Originally, all of humanity came from the Great Central Sun, or Supreme Sun. That is the greatest, most splendid world of all. It is located at the very center, or "hub" of the universe (our Galaxy) and as it slowly revolves it causes every sun throughout the universe to revolve in harmony with it. As you will recall, you and I (and all beings) started our great Cosmic Journey from that center and were sent to the lesser sun of this solar system for our "basic training" in matter. Thus, the sun that I watched drop gently behind the horizon, was in a sense more like my "home away from home". While beyond this sun, at an almost incredible distance, was my true home --the Supreme Sun! I could see then, that "the path of Return" -- really meant returning in wisdom and glory to that most magnificent of all worlds at the hub of our Galaxy.

Once again I got into my car and drove up the winding "Mountain Drive" leading to that peaceful spot where Lon-Zara and I communicated telepathically with each other. The appointed time for the "mental rendezvous" was only minutes away. I was filled with eager anticipation at the thought of new wonders that my amazing friend would surely reveal

to me within the next two hours. Indeed, my soul was already thrilled to its very depths by the marvels I had experienced from the first moment my Venusian master made known his presence to me via Telethot. Much greater things, however, were in store for me this evening...things that a few scant hours ago would have seemed above all reason.

I turned my car into the small clearing where I usually parked near the summit of the mountain, got out and sat down on the stone ledge overlooking the valley. Darkness was beginning to settle over the countryside. The sky sparkled with a few stars, and I could see the planet Venus most plainly of all. The night was warm and pleasant and friendly. I reached in my pocket and found the Telolith stone that had proven so helpful to me in my telepathic tests. Holding the Telolith in my right hand, my eyes again sought the planet Venus. It was at that moment that I saw a strange phenomenon.

THE STAR THAT WASN'T From my position on the high ledge on the mountain, I could observe what seemed to be a star in the sky slightly below and to the left of Venus. Like any other star, this one appeared to hang motionless in the heavens, yet it differed from the others in one unusual respect. It blinked slowly, methodically and in brilliant changing hues of color; red, orange, green and blue. While I watched this strange "star" in fascination, the musical signal from Lon-Zara suddenly flooded into my awareness.

"Michael X" came that marvelous voice, "Greetings to you from all of us who have watched your progress on Earth! At this moment I am closer to you than you realize, although I am certain you would have guessed the truth yourself had I not communicated with you now. That unusual star you are observing -- is not a star but a Space Disc from Venus. I am aboard that Disc now and communing with you mentally from a position in space approximately 30 miles above the Earth."

"But," I said with the strangest sensation welling up in my throat, "only last evening you were on the planet Venus! That's twenty-six million miles away from our Earth. I don't see how...."

"How such a distance can be navigated in one day? This was accomplished, Beloved Brother, by traveling in our Space Disc at a velocity that would be considered impossible by most scientific minds on Earth. We flash through the vast gulf of interstellar space at a speed approaching that of light itself. To us, time and space have ceased to be factors of overly important significance, for at such velocities we have "collapsed" time and space--to the point where they remain only pleasant and delightful "challenges" to us.

"The time has come," continued the Space Master, "for us to make ourselves known to more and more sincere individuals on your planet. We have found only a mere handful of Earthlings who are prepared to welcome us with open hearts and minds. But we are grateful for those few. You, Michael X, are one of several other chosen ones whom we shall visit and instruct before this night is over. Why are we here? to serve a very important purpose--a COSMIC PURPOSE--which has to do with the spiritual aligning of Earthmen wth the PLAN OF THE CREATOR. We come to assist those who are ready, to make the next higher step upward in soul-evolution. This is the reason for our visits to Earth: to save your world from the elements that would destroy it through the Forces of Negative and to bring certain individuals the PATTERN whereby a better world CAN and SHALL be built.

A CENTRAL GROUP  
OF ELDER BROTHERS  
HEADED BY JESUS

"The Earth is undergoing a Great Awakening," Lon-Zara said, "for the call has gone out from the higher realms for more enlightenment on planet Earth. The Overseers of this mighty movement include the Lords of Venus, Mercury and Vulcan, which are headed by our brother who is known to you as Jesus. All who hear the call and respond to it, are tested by us first. Those who wish to serve with us must meet one requirement: they must be selfless in service to the Wise Ones. This is possible only if one has love and compassion for the divine LIFE that dwells in humanity." VIP!

"Step back to the edge of the clearing, my Brother." the Adept suddenly commanded. "Our Space Disc is about to descend near you. Move back--quickly!"

Obeying the command at once, I stepped back away from the central clearing as fast as I could. With unbelievable speed and absolute silence the "star" became an ever increasing body of whitish blue light as it flashed toward me. It grew larger by the second and glowed intermittently with several different colors. I could see it was circular in shape, with an outer section spinning rapidly. The light from the "saucer" or disc was intensely brilliant, but appeared to me to be more phosphorescent than fiery. In diameter, the disc must have been twenty-five feet across. For a moment it hovered over the center of the clearing, then settled almost to the ground. There, a few feet above the earth, it hung motionless. A gentle sound was now audible. Like the quiet humming of bees. Then the disc floated to the ground, and all the bright glowing light disappeared.

In a state akin to shock, I watched a door in the side of the Space Disc open silently, in front of me. A man of tall and commanding stature stepped out of the amazing craft.

He was clad in a one-piece uniform which appeared to have been made of some amazingly flexible, pressure-resistant material. On seeing me, the Spaceman lifted his right hand in a universal gesture of friendship, and moved in my direction.

"Greetings, dear friend," he said, and as he spoke the words I recognized instantly the mellow tones of Lon-Zara's voice! My heart leaped with such sudden joy that I was left almost breathless. As he drew nearer I could see his face for the first time. It was the face of an extraordinarily intelligent human being, radiating masculine strength and decisiveness, but also conveying an inner quality of peace and kindliness and a compassion I shall never forget. His forehead was high and full and he had an abundance of golden-bronze hair which was parted in the middle. The color of his skin was somewhat unusual. It was of a golden-tan radiant hue, denoting an individual in perfect health.

A HIGHLY EVOLVED  
HUMAN BEING FROM  
ANOTHER PLANET

The Venusian adept looked directly at me. He had very large, clear, blue eyes which shone like precious jewels, with a great depth in them and I felt as if I were looking into a deep ocean and could see the whole universe. Divine strength, love, heavenly wisdom radiated from those wondrous eyes. His expression was beyond my dream. Who knows how many thousands of years I had waited for this moment? Yet it seemed to me that I had felt this same dynamic presence even before our first telepathic contact.

"Yes, my dear friend," said the master teacher from Venus, answering my unspoken thought. "I have often been in your presence and stood by your side, although you did not see me. I have directed the flow of ideas which streamed into your brain while you elaborated them and put them down in writing in your special monographs. Moreover, this place has often been visited by you while your physical body was sleeping and you have conversed with me and with other Venusians. But when your soul-body returned to its house of flesh and blood, it could not impress the memory of those meetings upon your Conscious brain centers. Therefore you could remember none of your transcendental SPACE TRAVELS when you awoke. The memory of the animal form retains only the impressions made upon it by the avenues of the five physical senses; the memory of the SOUL awakens when we are in the spiritual state."

I told Lon-Zara that I considered this day the happiest one in my life, and only regretted that I was not yet ready to begin active life on his planet, Venus, as I felt that I was not yet worthy to remain in the society of beings so far exalted above my own state. There are many reasons why it is difficult for us to each know our own "rating" in spiritual evolution.

"It is true," Lon-Zara said, "that you are not yet ready to become an active citizen of Venus, for your special work on Earth is by no means completed. You shall, however, be permitted to look in on our planet by MENTAL TELEVISION and thereby gain firsthand knowledge of our advanced way of life. This power, and others that we shall give you, are spiritual in nature and must never be misused. Unless they are used to serve the GREAT PURPOSE, they could prove harmful to you and to the race. Remember always that SOUL POWER is a divine privilege, and while the Lords of Venus can bestow power upon Earthlings, that power can also be turned off at the discretion of the Wise Ones!"

As the Venusian said this, his mild and benevolent look seemed to penetrate my whole being and to read my innermost thoughts. Then he smiled, closing his eyes momentarily. To my amazement and delight, another human being stepped out of the Space Disc and came over to where we were talking. I could see by the light diffused through the open door of the Disc, that it was a woman of unusual beauty. She too, wore the same kind of uniform, indigo blue in color, with an iridescent quality in it. Her movements were graceful, dignified and yet full of youthful energy as she approached.

Like Lon-Zara, the Spacewoman's skin was sun-bronzed and healthy looking. She too was fair-haired with a full high forehead. Her eyes were a rich blue-violet color in which a few tiny flecks of gold seemed to sparkle. Her features were beautifully proportioned, and her entire figure rather tall and slim. Around her waist she wore a golden belt of most unusual design. Her feet were clad in shoes made of a soft, golden mesh material of extreme pliability.

"Greetings from us both, Michael X," she said sweetly, in bell-like tones. "I am Shelana of Venus. We love you and the people of Earth as we do our own glorious world, but we are saddened to behold the inharmony of your planet. It is for this reason that we come to visit you and any others of the Earth who will listen to our voice. We bring to you the superlative science of Life, Love and Light from Venus, which can create a Positive New Earth for you, just as it brought Peace, Love and Abundance to Venus. Our mission on Earth is to find souls who will assist us in teaching the "Science" to men, women, children everywhere on your globe. We are looking for those of you who will help fulfill that purpose. As you now know, we are not aliens but your own Elder Brothers and Sisters who have trod the same path you now tread. Higher evolution is your next step, and we are here to guide those of you who have prepared themselves through discipline and meditation. By using the THREE PRIMARY PRINCIPLES, Life, Love and Light harmoniously, you shall establish a Positive world!"

It was indeed inspiring to hear Shelana speak these words of encouragement, and I at once perceived that she was not only beautiful but highly intelligent as well.

"Many of us Earthlings have long desired such a Positive world," I admitted, "but so far we have not discovered the right formula. The destructive way comes easier to some of us and as a bitter result our Earth reaps fear, hatred, disease and war. Yet, I have always believed that a universal formula exists in the Cosmos whereby humanity here can live in mutual respect and harmony."

Shelana and Lon-Zara did not speak. They did not need to, for their thought suddenly transformed my whole being, filling me with a hitherto unknown feeling of joy, beauty and serenity. I knew then that such a formula does indeed exist and is in use now by all advanced planets. I felt that love, properly understood, was the great key. And love, in its higher aspect, is not spoken. It comes like a wonderful comforter to serve the innermost needs of all living souls.

#### THE MYSTERIOUS VENUSIAN EMBLEM AND ITS GREAT SIGNIFICANCE

While I stood there, profoundly affected by the positive and uplifting soul vibrations of these two noble beings, I noticed with great interest the triangular shaped emblem or insignia which each of my visitors wore on the breast of their uniform. The strange emblem glowed softly with a light of its own. It contained three intermeshed circles of blue, yellow and red colors. I could see several other symbols within the triangle.

"This insignia" said Lon-Zara, noting my interest, is worn by all Venusians who have, by study and application, qualified themselves to teach the SECRET SCIENCE. The symbols contained within this white triangle hold the answers to earth man's greatest problems, as you will come to understand later. At this moment, I call your attention to the three circles. Each circle is imbued with one of the THREE PRIMARY COLORS, blue, yellow and red. These colors signify the THREE PRIMARY PRINCIPLES by means of which the whole celestial universe is operated. Blue denotes the principle of LIFE or Universal God-Will. Red denotes the principle of LOVE or Mutual attraction. Yellow signifies the principle of LIGHT or Intelligent Reason. Keep these three principles in mind as we progress, for they are the important keys to our superior powers.

"By interblending and balancing the three primary colors (or principles), FOUR other secondary colors result. As you notice, the four new colors are Green, Orange, Purple and Indigo. Each secondary color indicates a principle, thus Green signifies PEACE, Orange signifies JOY, Purple denotes

POWER and Indigo symbolizes BEAUTY. By adding these four secondary principles to the first three primary ones, a total of SEVEN PRINCIPLES becomes manifest. Do you recall them?"

"Yes," I answered, for my memory seemed especially keen and retentive whenever Lon-Zara was instructing me, and I felt as if each word from him impressed a vivid image upon my mind, never to be forgotten. I repeated the Principles:

	<u>7 COLORS</u>	=	<u>7 PRINCIPLES</u>	
3 Primary	{ 1-BLUE 2-RED 3-YELLOW	=	{ 1-LIFE 2-LOVE 3-LIGHT	3 Primary
	4-GREEN 5-ORANGE	=	4-PEACE 5-JOY	
4 Secondary	6-PURPLE 7-INDIGO	=	6-POWER 7-BEAUTY	4 Secondary

"Now," said Lon-Zara, "what happens when the element of black is added to each of the three Primary colors?"

"The three colors which originally are a cheerful and bright hue, would become dark, dull and drab." I replied.

Gazing directly into my eyes, the Venusian said, "You are right, and in precisely the same manner, if we add the element of darkness or NEGATIVITY to our three Primary Principles of LIFE, LOVE and LIGHT, the total effect is NEGATIVE. That

*Note*

is, the four secondary principles are obscured so that instead of manifesting all seven principles as FORCES OF POSITIVE, we would unhappily manifest their opposites, namely:

### 7 FORCES OF NEGATIVE

IGNORANCE  
FEAR  
HATRED  
REVENGE  
DISEASE  
UGLINESS  
DEATH

"However," Lon-Zara continued, "you must not make the mistake of presuming that, by practicing what your world calls "Positive Thinking", you will thereby eliminate automatically all the Forces of Negative. Positive thought is indeed useful and a step in the right direction. But as you well know, an individual can be 'exceedingly positive' about the most negative, destructive and harmful things. An armed man can become a 'positive minded killer', a brilliant scientist can think so positively that he is able to assemble a 'guided missile' which has as its sole purpose the mass destruction of many other human beings. Do you see now, how vitally important it is for humanity to find the TRUE FORMULA?"

"In this HYDROGEN BOMB age, with deadly intercontinental ballistics missiles, the need is more urgent than ever before in the history of the planet Earth," I remarked gravely.

"Happily for your Earth and all humanity, there is a way whereby the SEVEN CURSES (the Forces of Negative) can be eliminated from your planet," said Lon-Zara. "For it was by this same means that our own world, Venus, was transformed into a Positive Planet, radiating the FORCES OF POSITIVE. And what we accomplished, your people of Earth may also hope to achieve, with the assistance of our Venusian Lords.

HOW ALL MAN'S  
PROBLEMS MAY  
BE SOLVED

"Millions of years ago the greatest Lord Thinkers of Venus discovered the true purpose and function of man's mind. They learned that all living beings, including man himself, are the manifested result of two primordial powers which are called Universal Will and Love, and which called the entire universe into existence. The two primal powers are in essence electrical (Will) and magnetic (Love) and as you have previously learned, are comprised of electrons and vitrons. These two forces may manifest in various ways, and on the seven different planes of existence, as mechanical force or as spiritual powers; but they are always the same divine

primordial powers of Will (or Life) and Love (Mutual Attraction), acting through the instrumentality of the MIND of God the Father and His Heirarchy of Wise Ones, who direct the two great powers by INTELLIGENCE.

"Man's greatest mistake has been to imagine that he is an individual entity, having a will of his own, whose mode of action is different from the Universal Will! This serious mistake has been THE CAUSE of all individual, national and international problems of humanity on the Earth. The only solution lies in correcting the basic CAUSE. Earthlings will not be able to build a better world, a Positive Planet, until they understand this truth. Life or Will is a universal power. With it, all things live. Without it, all things die." VIP

It causes the revolution of planets in space; it pervades and penetrates everything, and does not require your strengthening it, for it is already strong enough to accomplish every thing possible. Your divine duty as a human being, is simply to RECOGNIZE the universal will and permit it to act and manifest freely through you. You may then experience the fullest extent of its strength..if you do not attempt to oppose it. But if you ignore the universal will, and think that your personal human will is separate and superior to the great original power, what is the natural result? You merely divert an insignificant part of the life energy and oppose it to the original will-power of the universe; and as you are only an insignificant part of the latter, you will be overwhelmed by THE SEVEN CURSES and bring on your own destruction. Long ago we discovered that MAN'S function is to embody the third primary Principle which is LIGHT (or Intelligence). When man uses his reason and intelligence he needs no "personal will" for he can then TUNE IN to the will of the universal Spirit, and utilize its unlimited power in a wise manner."

"Then," I said, "all of humanity's troubles come from its shortsightedness in ignoring the universal will, which I perceive to be the LAWS OF LIFE as found in all Nature. I can easily see how a human being, who tries to use his imagined "personal will" contrary to THE GREAT WILL, at once comes into conflict with infinitely greater power and is thus sooner or later BROKEN by the Law he, knowingly or unknowingly has opposed!"

LIGHT IS THE  
HIGHEST PRIM-  
ARY PRINCIPLE

"The TRUE FORMULA," replied the adept, is indicated by the position of the three circles shown in our insignia. You will note that the golden yellow circle is uppermost. There is a very good reason for this. It denotes the fact that the principle of LIGHT (Intelligence) is the highest principle in the universe; for by employing our Reason and Intelligence in harmony with the universal design (Peace

and Good-Will to all men) we may guide and conduct the already existing Life-Energy in Nature, and thereby cause it to accomplish marvelous things in perfect accordance with the laws of Nature. When a human being employs his Intelligence in tune with the God-Will (Good-Will to all beings) he or she is then overjoyed to find that SEVEN BLESSINGS begin to manifest in his or her life. Moreover, these blessings continue to increase the more the TRUE FORMULA is observed.

"The SEVEN BLESSINGS being the 'forces of Positive'?" I asked, recalling again those seven wonderful principles.

"Truly," replied Lon-Zara, "real treasure is not outside of man, but within him. It consists of INTELLIGENCE, by which man may direct the force of his Spirit (Life) to create the GOOD he idealizes, and bring it forth in perfect order, harmony and peace. Harmony, you see, is LOVE. If the Creator of the Cosmos had used only blind force without love and intelligence, there never could have been an orderly creation.

"Yes," added Shelana, "Love is, we might say, cohesion, or a universal force that holds things together, keeping all things in right relationship to their source. What is the secret of achieving a "Love Consciousness"? It is simply to work in harmony with your source--Divine Spirit! Live, move and act in conscious awareness of LIFE, LOVE and LIGHT, knowing that by doing so you are keeping your life in divine and perfect order. These three primary principles are working in and through all living beings. This makes all life ONE. See the ONENESS, the unity of life and you can no longer think of yourself as separated from the one UNIVERSAL SOURCE. Of ourselves we can do nothing. It is the living Spirit that quickens, reanimates our thoughts and our bodies. Then we are able to express creative power and thereby perfect ourselves and our physical environment."

As I listened enraptured to these golden words of wisdom from my two wonderful Space friends, I felt this sense of oneness and it was indeed a profound experience. In one glorious moment I embraced THE ALL and enfolded that One Life with the light and love of my own soul and spirit. Suddenly I could see that the Science of the Venusians was "secret" only to those who did not know and feel the unity of all LIFE. Surely the Space People could find many others on Earth who understood love's power. Those Earthlings could assist....

"Only a FEW are chosen," said Lon-Zara reading my mind. "Among the billions of Earthlings, simply because the majority are not physically, mentally, and most important of all, SPIRITUALLY EXPRESSING the higher vibrations of love. We can only assist those who are ready to receive our influence.

We can only approach those who spiritually approach our own sphere. Love causes mutual attraction; evil repulses. The pure will be attracted to the pure, the evil ones to that which is impure. To give presupposes the capacity to receive on the part of him who is to receive. The SUNLIGHT is open to all, but not all are able to see it. The eternal fountain of COSMIC TRUTH is inexhaustible and universal; but those who open their hearts to the REALITY of our presence are few. We come in peace, seeking our own...those who recognize us and can see as we do the great need for WORLD ENLIGHTENMENT.

"Those who wish to contact us," said the Venusian, "may prove their sincerity of purpose by concentrating their full attention upon our VENUSIAN INSIGNIA, for FIVE or more minutes daily. The insignia should first be colored with all the correct colors. While concentrating, the student should meditate deeply upon the profound significance of the three primary principles, LIFE, LOVE & LIGHT; and their four secondaries, PEACE, JOY, POWER & BEAUTY. At the conclusion of each concentration period, the student should mentally invoke their own true Cosmic Teacher from Venus. This practice will assist in putting the individual in rapport with us and, at the same time, will expand his spiritual awareness. We will then lead him gradually--by silent means--first to one little thing, then to another, along the Path of Return, until at last he is evolved to that point where one of us will become his personal Teacher. He will then be guided to a visible contact such as you have experienced. Mysteries will be made plain to him at that time, which would be dangerous to seek without the aid of One of the Elder Brothrrs."

SPECIAL QUESTIONS: The theme of this third lesson suggests the following important questions:

1. What does the Path of Return really mean?
2. Do you believe that a "universal formula" exists whereby human beings everywhere can live in peace and harmony? *yes*
3. Name the three primary principles and their colors. *Light Yellow, Light Red, Light Blue*
4. Name the four secondary principles and the colors. *Light Blue*
5. What has been the greatest mistake of Earth man?  
*to think he is an individual entity with a will of his own*  
*Green Peace*  
*Orange Joy*  
*Purple Power*  
*Indigo Beauty*

## YOUR GRADUATION FROM EARTH

### Lesson 4

While Lon-Zara was instructing me as to the method by which sincere individuals on Earth may invoke the aid of the Space People, and come into attunement with one or more of the Cosmic Teachers on Venus, Shelana had quietly walked back to the Space Disc at the center of the clearing. She entered the craft and after a few moments reappeared at the door. In her right hand she carried a small tray. The tray held three large golden chalices, each one filled with a creamy, sparkling liquid. Walking over to where Lon-Zara and I stood, Shelana smiled, saying:

"My Brothers, forgive my momentary absence. I have prepared a delicious tropical elixir for each of us. It is a custom of our people to partake often of liquid refreshment."

The suggestion was most welcome, for in my excitement over tonight's contact with these two wonderful beings, I had forgotten completely about any need for nourishment. And, as I had by-passed my usual supper, I looked forward happily to the refreshing elixir Shelana had prepared for us. If this elixir was made from foods grown on the planet Venus, it would no doubt possess a flavor quality unknown to Earthlings.

Shelana served to each of us a golden chalice, full to the brim of the creamy liquid. Lon-Zara proposed a toast:

"Let us drink to LIFE, LOVE and LIGHT on Earth!"

We did so, and its wonderful effect made me gasp with a pleasant surprise. Not only was the taste of the beverage exquisitely delicious, as though it had been concocted from some truly ambrosian tropical fruit, but the electrically vivifying action of the Elixir was immediate and positive. Whereas I had felt somewhat weak and lacking in energy, I now felt entirely refreshed and amazingly strengthened.

THE MAGIC OF  
VITALITY ELIXIRS  
PREPARED BY THE  
VENUSIAN PEOPLE

"That which you drank," Lon-Zara explained, "is but one of many such Vitality Elixirs we enjoy regularly every day on Venus. We prepare these unusual beverages from various tropical and sub-tropical fruits which abound in positive electric qualities as well as being delightfully delicious to the taste. By drinking these special food elixirs consistently, the men and women of Venus realize superior health and preserve their youthful looks for several centuries. Of course we have other means whereby we are able to live long enough in one particular body to attain a high

state of Conscious evolvement in mind and body. If Earth man but knew it, this also is his goal, for by rightly directing the divine energies of LIFE and LOVE he would thereby build for himself and all mankind, a state of HEAVEN and HARMONY on Earth as well as in the 'hereafter'. A time is coming when such a harmonious condition shall exist on your planet, and it will be manifested by intelligent men and women who realize that all three of these PRIMARY POWERS, Life, Love and Divine Wisdom (Light) act from within each individual. Self-knowledge then, is the basic need of your people. When you know that the "Divine Trinity Principles" are operative within every person, all that is then required is a program of WORLD ENLIGHTENMENT to put those principles into ACTIVE USE."

THE COMING  
MILLENIUM

"Life, Love and Light," I said, "are the true forces, then, that shall usher in another Golden Age on Earth. For I see now that a prophesied 'thousand years of peace and good-will on Earth' is but the secondary effect of those three primary CAUSES."

"True;" replied Lon-Zara, "your long-awaited Millennium is nearer than you realize. Still, we have not the time to wait for it. Each individual on Earth has a most important task to perform right now. Let each one attempt to restore harmony in his own mind, body and soul by RECOGNIZING the universal nature of LIFE, LOVE and LIGHT. The next step is to actually live according to these three principles, to the utmost of your understanding. This will automatically bring you into 'tune' or harmony with ALL OF NATURE'S LAWS, since they are but secondary manifestations of the three primary principles. This may be somewhat strange and difficult to do at first, but will become easier and more satisfying as you persist in living from the 'Soul Center'. Then harmony of your planet as a whole will be restored and the Earth will come into its own era of Peace, Power and Plenty!"

GRADUATING  
FROM THIS  
EARTHLIFE

"Am I correct in thinking that each of the seven sacred planets--of which Earth is one--has its own individual Heavenworlds where the souls on that planet go to rest after the physical body dies?" I asked.

"We have found it to be so;" the master answered, "for it is part of the COSMIC PLAN that each soul must ascend to the kingdom of the SUN (THE GREAT SHINING WORLD) by mastering the negative conditions of each physical planet. This is called the 'overcoming' of matter by the spirit. It is in no way a violent process, but rather a series of gradual steps by which man starts his climb (great Cosmic Journey) at the bottom rung of the Ladder (planetary system) and progresses slowly from planet to planet until he reaches the top of the

ladder. Hermes Mercurius Trismegistus, one of the twelve great Teachers of Earth's humanity, taught this same truth when he said: 'To know Divine thought, O souls, you must descend and painfully ascend the paths of the SEVEN PLANETS and of their SEVEN HEAVENS.'"

"Then," I said, "what the average person considers to be his ultimate destination, i.e. Heaven, is not the real goal at all, for you say there is a 'heaven' around each of the planets, making a total of SEVEN HEAVENS. Yet each of these is only a 'visiting place' en route to the SUN?"

"Yes. Each planet is surrounded by its own astral or etheric worlds\* the highest of which is called a 'heaven'. When a human being on any planet dies, the soul leaves the physical body, and in its astral body enters first into the lower astral frequencies of ATMOSPHEREA. Most usually at death the individual goes into a period of 'Soul-Sleep' or unconsciousness (this period varies with different souls) during which period he dwells for a time in his astral body. As this 'fades' he lives only in the point form, or 'Divine Atom'. This Divine Atom then slowly gravitates into higher regions of the etheric world until it attains the more blissful, heavenly regions of ETHERIA.

"During its sojourn or 'sleep' in the lower astral frequencies next to the planet, the soul gradually awakens from its deep dreamless sleep and as it rises higher and higher in the etheric regions, begins to dream and create vivid mental pictures of the things and sensations it most loved and desired while on the material plane of planetary life. As the dream takes on more and more sense of urgency to manifest, a universal law of Rebirth becomes automatically operative and the individual soul is drawn magnetically (by thought and desire) back to the material world and 'wakes up' in a new physical body. With some good souls there is an urgency to 'come back and try again' to pass certain 'tests' in the planet's objective life-plane. Bear in mind, though, that there has been, in this re-birth, no actual PROGRESSION to a new and more advanced planet. This does not take place until the individual has been reborn so many times on a particular planet that he or she has consciously developed a greater knowledge of LIFE, LOVE and LIGHT. From this knowledge WISDOM is born. Wisdom is derived from experience of the soul in the material state. And the purpose of wisdom is to enable man to release himself from physical cravings, appetites and sensations which 'magnetize' him or her to one physical world.

*MTC*  
"The law of Rebirth works on a magnetic principle. On your planet Earth, for instance, a soul who has just newly arrived must begin its Earthlife in one of TWELVE MONTHS.

Each month of the Earth year is but one small division of the GREAT ZODIACAL CIRCLE, yet each month bestows upon the soul a different planetary influence than any of the other months. In order for a soul to gain all the qualities of the 12 Zodiacal periods and thereby acquire COMPLETE experience from the planet Earth, it rotates through each of the Zodiacal Signs by a series of successive rebirths. Each new rebirth on the Earth adds to the completeness of the soul's experience.

*Note*  
THE WAY OF  
REBIRTH

"By the time a soul has completed twelve Zodiacal Rounds (a total of 144 Earth lives) it should--if it has been diligent--have overcome its animal nature and mastered its physical appetites. If so, the gravitational pull of the planet Earth can no longer hold it and draw it back to Earth for more embodiments. The soul has become more POSITIVE and hence is drawn magnetically toward the next higher advanced planet. This is known as THE GREAT DAY of the soul's 'graduation' from a less evolved world to a more spiritual and advanced planet."

"What happens," I inquired, "if a soul refuses to apply itself and fails to gain enough WISDOM to enable it to master its negative nature and overcome the pull of gravity?"

"Several undesirable things may happen." the master replied, "For one, the soul will remain Earthbound and be drawn back into another cycle of TWELVE earth lives in order to 'make up' for what it missed learning in the previous cycle. It cannot be permitted to 'graduate' until it has learned through its experiences to RECOGNIZE the primary principles of LIFE, LOVE and LIGHT. Each successive cycle of twelve rotations is much harder than the first, for only by severe trials and tests does such a soul begin to manifest WISDOM."

PLANETARY  
LAGGARDS

*Note*  
"Perhaps the most unpleasant result of not keeping up with your fellow 'classmen' in the planetary school of life, is that the 'student' who fails to graduate with the others will eventually find himself in the company of much younger souls from less advanced planets such as Mars. Those younger souls find it quite difficult to 'understand' the older soul. And so it is always better not to become a 'planetary laggard', for those who do not keep pace with their particular Life Wave or group, are bound to find their planetary experiences more uncomfortable. The solution to this problem is not complicated, but it does require a greater exertion of effort on the part of the ones who are 'backward' in their planetary progress. If they are sincere in desiring to catch up with their original group, they should seek to obtain as much WISDOM as possible from each experience in their daily life. Instead of looking at outer effects only, they should make it a special point to

*Leon*

*Leon*

look beneath the surface of things, into the inner CAUSES of the effects they see. They must learn to discover these causes for themselves, and not rely on others to do the mental work for them. As an example, if an individual becomes ill, he should first search his own past actions to discover the true cause of his illness. For unless he recognizes his own mistakes by using his own intelligence, he can have no permanent health.

"Without wisdom one cannot advance to the next higher planet, and wisdom comes through SELF-KNOWLEDGE and a deeper understanding of the natural laws of life. To make sure of your graduation, therefore, double and redouble your efforts to KNOW THYSELF...for if you do this, you will begin to know how the Microcosm (the Small Universe) functions. Then, by analogy, you will at once begin to comprehend how the Macrocosm (the Great Universe) is designed, for truly 'as it is below, so it is above; as it is in the lesser, so it is in the larger'. LIFE, LOVE and LIGHT govern all things.

PHYSICAL DEATH  
NOT INEVITABLE

"I have mentioned previously that it is entirely possible to forestall death of your physical body for an indefinite length of time, if certain natural laws and practices are observed. On Venus, the men and women do not age as rapidly as do your people of Earth. Evergreen youthfulness is the rule rather than the exception on Venus. To live for 500 to 1000 years in one physical body is not uncommon for our people. Does this fact startle you? It need not, for remember that the average Venusian is near the level of Adeptship, and if you will recall some of Earth's Adepts\* have been able to prolong the appearance of youthful vigor for several centuries."

"Master!" I exclaimed, "How is this great extension of physical life in the same bodily form possible? As you well know, the people of Earth consider it a marvelous thing if they succeed in reaching the 'old age' of 100 years. Despite the efforts of our men of science, the average person finds it exceedingly difficult to prolong his life. I have noticed that in most cases, the human body starts to 'break down' at about age 40, and becomes less and less efficient from then on. So-called old age (65 yrs. and over) is usually associated with weakness, disease and untimely death just at the time when the individual is beginning to gain some real wisdom and could thus be of most value and usefulness to the world."

"Neither a plant nor an animal, nor a human being can be expected to live and grow healthfully unless it receives the food and the stimulus it requires," replied Lon-Zara. "But unfortunately the average Earthling has never taken time to think out the question of VITAL NUTRITION to its log-

ical conclusion. So instead of consulting Mother Nature to find out what classes of natural food she intended him to partake of for his health and longevity, Earth man has come to the conclusion that he is OMNIVOROUS and hence may eat anything that grows, swims, walks or runs..so long as it is not another human being! The result of this omnivorous attitude regarding food, has caused man to eat abundantly of animal flesh, animal by-products and the various cereal grains which were never designed for man's sustenance. In order to make these foods palatable enough to eat, it was necessary to cook them by fire and then add salt and spices to them for flavor. By submitting nearly all of his food to fire, man destroyed the ELECTRIC principle in those foods. Also, the fire destroyed the living enzymes which aid in digesting the food. Man was thereby forced to supply living enzymes from his own body!

"Our Venusian scientists discovered long ago that the KEY to youthful longevity is VITO-ELECTRICITY and LIVING ENZYMES. Where are these marvelous factors to be obtained? Only from vital, living plants, such as tender succulent vegetables, luscious fruits, melons and berries, and the oleoginous seeds and nuts of various kinds. When these foods are eaten in their natural state just as they come from Nature, they are rich in SOLAR ENERGY which is able to animate all the atomic cells of your human body, stimulating it naturally with electric essence from the sun's rays. In addition to this, such foods provide a plentiful supply of living enzymes which assist digestion. Moreover, these foods are most delicious when uncooked. Thus they require no seasoning by salt, pepper and spices which irritate the body but add nothing to it in the way of ELECTRICAL VITALITY.

"In order to live long and healthfully, Earthlings need only follow the guiding hand of Nature, and eat food as far as possible in its natural state and uncooked. To submit any food to the action of fire at once injures the positive principle in that food, and destroys its enzymes. The extent may be little or great, but the effect is bound to show up sooner or later in life as DESTRUCTIVE to the body. When a body is deprived of enzymes through a steady diet of cooked food, year in and year out, it must work extra hard in order to produce enough enzymes to digest that food. By so doing it overworks the glands, weakens them and ages the body in a futile attempt to supply ENZYMIC ELEMENTS. In time, therefore, the tired cells become clogged with their wastes and have not enough power to throw off the poisons. Premature old age, disease and death are the sad effects of eating wrong foods (which require cooking). Instead of enjoying right foods which can be eaten as Nature prepared them. It is all so wonderfully simple when man observes Nature's Plan which of course follows the UNIVERSAL WILL of the Creator.

However, the moment that man voluntarily steps off Nature's Path and eats wrong foods, the problem of health becomes increasingly complex, confusing and bewildering. It is for this very reason that those Earthlings who would prepare their physical bodies for the phenomenal changes that are taking place and shall take place as we enter the NEW AGE\*, should not permit themselves to be misled any further by man's mere whims and fancies, which appeal to unnatural cultivated appetites; but should return to the sane simplicity of THE COSMIC PLAN. With the right food one can purify and regenerate the physical body, and make it a fit vehicle for New Age forces from the higher realms of light.

"This return to a simple, wholesome diet of natural foods consisting of the fruits of the earth, oleoginous seeds and nuts (or raw nut butters), nut milks, sprouted seeds and tender vegetables, must not be adopted suddenly. Rather it should be gradually replacing the old diet over a period of months until the body has lost all desire for the false foods of the 'Old Man' and developed a natural, normal preference for the VITAL, ELECTRIC, ENZYMIC foods of the 'NEW AGE MAN & WOMAN'. Remember, if you are not yet on the VITAL DIET, do not attempt to force your body to change overnight. Give it sufficient time to get accustomed to the new program by gradually increasing the amounts of natural foods consumed, and decreasing the amounts of unnatural foods.

#### THE HIDDEN WAY OF "COMMUNION"

"I have spoken to you about the great importance of building your 'SOLAR BODY' or body of Light, in order that you may advance beyond the Earth, beyond Venus, even beyond Vulcan to the Sun itself. I wish now to explain that right food is a positive aid in raising the body's vibrations, for it permits SOLAR energies to travel more freely through your body. Thus your body will develop more light; for vibration traveling through matter creates light. It is for this reason that the masters, including your great Teacher, Jesus, were careful to partake only of natural, vitalizing foods at all times. In addition to that, they fasted frequently to rid their bodies of cell wastes which would interfere with the inflow of SOLAR FORCE.

*Mate*  
"When the Solar Force enters abundantly into the body of a master or adept who is prepared to receive it, and energizes the spiritual organs (Pineal and Pituitary glands), such a master may consciously 'step-up' the vibrational frequency of those organs to such a degree that he is able to communicate with higher beings of inconceivable grandeur and beauty. These mighty beings not only advise, but cooperate with the master so that he is enabled to carry out special missions in line with the GREAT COSMIC PLAN. It is by developing the SOLAR BODY and controlling the influx of Solar

Force into the higher brain centers, that the adepts on Venus (as well as on the Earth) are able to 'tune-in' telepathically to the mental wave-lengths of the highest beings in the universe, and receive the vibrations and instructions desired for higher service to the Cosmos.

"This Solar Force creates an actual 'arc of energy' within the brain of the adept, as the solar current flows through the spiritual centers in the head. By consciously stepping-up the voltage of this energy, an adept can cause his third density body (physical) to vibrate at the fourth density frequency (etheric) at will. His body thus becomes filled with electrical radiance which grows increasingly more brilliant until the vibratory rate corresponds to that of the fourth density. His physical body is then completely invisible to ordinary sight.

"Solar Force also serves to purify and vitalize the physical body to such a pronounced degree that it destroys all disease and if wisely directed, can overcome the 'Grim Reaper'--Death itself! Does not your Christian Bible prophesy that Man shall conquer his 'last great enemy' Death?

ENOCH, ELIJAH AND JESUS "Thus by observing physical, mental and spiritual laws as they exist truly in Nature, your own great Teachers, Enoch, Elijah and the Master Jesus overcame death and 'by-passed' the Law of Rebirth by learning to govern the Solar Force so that by means of it they could raise their vibrations and perfect an imperishable SOLAR BODY. After their work on Earth was completed, these three Teachers were transported in space vehicles to Venus, where they convened with 'The Ancient of Days', Sanat Kumara, as to the results accomplished and the next phase of their Great Cosmic Work in helping Planet Earth.

"It is the chosen duty of advanced Venusians to assist you, our brothers and sisters, for we have walked the same paths you are now treading. We are like you, Sons and Daughters of THE GREAT LIGHT, the only difference being that we have had more time in which to perfect ourselves and ascend to the next step beyond your present level. You may consider us your Elder Brothers, ready, willing and able to serve you. Our dedicated task is the raising of the Earthlings, so that ever-increasing LIFE, LOVE and LIGHT shall radiate over your planet in the wonderful Age of Aquarius. According to the universal law of Mutual Attraction, those of you who are now developing a higher awareness of the beauty, goodness and oneness of all life will be attracted to Venus for your next incarnation. It is for this reason that on Venus you will find the highest type of teachers, philosophers, artists, poets and creative thinkers of every class. Those Earthlings

whose minds and hearts have not yet been opened to the great power of ENLIGHTENED LOVE, will not 'graduate' at their next incarnation, but will reincarnate again on the Earth. This will continue until they have attained a consciousness that is in more perfect harmony with the selfless and altruistic souls on the next higher planet."

As Lon-Zara finished this thought, a violet light began to blink on and off rapidly, above the door of the Space Disc.

"That is the signal," explained the Venusian, "for me and Shelana to return to the Great Transport Spaceship which is waiting for us at a stationary position 200 miles above the Earth. The small 'Flying Saucer' you see before you now is one of many 'Scout Discs' carried by the larger craft. We utilize these smaller discs for purposes of observing the Earth more closely and for making personal contacts with our friends here.

"Our Transport Spaceship will remain in its present position for three more days, during which time we shall commune with you telepathically each evening. It will not be necessary for you to come to this mountainside as previously. The privacy of your own room in the city will be sufficient. However, you may continue to use a Telolith gem as before, to increase your powers of psychic attunement with us. Our next contact then, will be by Telethot tomorrow evening at the usual hour. I shall at that time disclose to you some fascinating details regarding our way of life on Venus, and the wonderful souls who now dwell there."

Lon-Zara and Shelana smiled...beautiful, radiant, soul-warming smiles. I responded with a sincere smile and my most grateful thanks for the divine privileges they had bestowed upon me this night. My heart was too full to say more.

*Rate*  
"Keep faith with us, Beloved Friend," said Lon-Zara, "and with the Divine Plan of the Cosmos, and your reward shall exceed your fondest hopes!"

With this, my two marvelous visitors turned quickly, and in a few graceful strides had reached the Flying Saucer and entered it. The door closed silently behind them. Then, as I watched in amazement, the circular craft suddenly glowed with brilliant, greenish light. This turned into intense golden orange, and all at once the ship was off the ground. In seconds it climbed straight up for a distance of 300 feet, then changed direction and moved with unbelievable speed at an upward angle. The gold-orange color of the ship turned to blue-white and suddenly I could see it no longer.

### SPECIAL QUESTIONS

The theme of this Fourth Lesson suggests the following five important Questions:

1. How may each individual on Earth restore harmony in his own body, mind and soul?
2. What is the number of "Heavens" each soul shall experience en route to the Kingdom of the Sun?
3. State the number of Zodiacal Rounds of Re-births usually required for complete experience on Earth. How many earth lives does this represent?
4. To make sure of your Graduation to Venus, what must you do right now in your present Earthlife?
5. What kind of individuals gravitate to Venus?

### SPECIAL QUESTIONS

(Study Lesson Five first)

The theme of the Fifth Lesson suggests the following five important Questions:

1. What is the good result of being more orderly and harmonious in your personal life?
2. For vital New Age Health, should you include in your daily diet foods that have been pickled, roasted, toasted, boiled, frozen, dehydrated, pasteurized or fried? Give reason.
3. Is the One Power in the Universe ever "evil"?
4. What is the "Diamond Star" and where may it be found? Why does it resemble a Diamond?
5. What is the great secret of Venusian life?

## YOUR MAGIC LIFE ON VENUS

### Lesson 5

The next morning proved to be a busy one, as there were numerous routine duties to take care of in the office. I attended to these matters as carefully as I was able to, considering that my previous night's experiences had made a profound impression upon my mind. In memory I kept seeing the beautiful, radiant face of Shelana and the dynamic, compassionate expression of Lon-Zara. Golden memories these, and to think that these wonderful space-beings had not only given me "OSC" (Outer Space Communication), but had also honored me with a personal visitation by "flying saucer", was more than I could fully comprehend. Yet the inner assurance that I now felt was definite and positive. The space-beings did exist. They were real. This I knew now beyond the shadow of a doubt.

Moreover, there was real purpose in their being. Lon-Zara had made plain many secrets of Life which had been only deep mysteries to me before. He had taught me about the laws of planetary progression, rebirth, vital diet and of the great importance of building a Solar Body. I could see now that all this was in perfect alignment with the GREAT COSMIC PLAN of the Supreme Being. The wise ones from Venus were serving that Plan...not by violent force, but by a restraining influence of loving-kindness. Not by taking away from us what we have already acquired, but by adding to destructive Earthlings the necessary factors to make us constructive - HARMONIOUS.

Humanity on Earth has reached the decisive mid-point in planetary progression; but is greatly behind where it should be in SPIRITUALITY. To remedy this, the Venusians, our own elder "Space Brothers" are teaching us by personal example, how we too may assist in furthering THE GREAT PLAN.

I resolved to start at once applying what I had already been taught regarding the "Secret-Science", which, as you know, is based on living from one's inner "Soul Center" rather than from mere outer appearances. The first step, according to Lon-Zara, was to RECOGNIZE the universal nature of LIFE, LOVE and LIGHT. Very well. From now on I would consciously be more highly aware that I dwell in a LIVING universe, with every entity (mineral, plant, animal and human) partaking of ONE great Life. Also, every entity is evolving into a state of self-consciousness wherein it at last recognizes its own divinity. LIFE is the great Positive (+). It is the "Universal Father" of all creation.

Next I considered the second principle, LOVE. Looking about me I saw evidences everywhere of the presence of love.

Not simply human affection, but rhythm and harmony which keeps things, people and thoughts in ORDER instead of chaos and confusion. I looked at my own office desk. It was cluttered with papers that should have been filed neatly away. Only by putting those papers in order would I be able to create and build anything constructive from them. Love was not only a visionary thing, it was intensely PRACTICAL as well. It is by our use of Love that we are able to bring order and harmony into our daily lives, and thus bring forth some useful and constructive result. In this manner we are able to use the tools and talents we possess, to CREATE things of beauty and value for the human race.

Without sufficient Love--orderly activity--we always lack CONSTRUCTIVE power. The solution is to become more consciously aware of this principle of order, right relationship, neatness in every one of our daily actions. You have heard that "Love is the fulfilling of the Law", and truly it is. For the Law is LIFE. It is to "have LIFE and have it more abundantly" as the Master Jesus proclaimed. And by the practical means of useful, CREATIVE activity, you and I and all mankind produce the most desirable conditions for the manifestation of still GREATER LIFE. In all our activities there is no need to use brute force. Love never seeks to take things apart, only to harmonize. Add to instead of take away. That is the secret. Intelligence guides Love. By being more ORDERLY we become more constructive and CREATIVE and success soon becomes automatic.

As I went about my daily routine, I began to recognize Love as being the "Universal Mother", the force that protects all Life by keeping it "well ordered and secure". The same law applies to man as it does to great universes. Love is signified by the minus sign (-) to denote that it serves the Universal Will by cooperating with it non-destructively.

In addition to this practice of giving more conscious attention to the existence of the trinity principles, I also determined to make sure that my daily diet consisted of 100% vital foods. These were to be in the natural state, uncooked and unprocessed by man. In line with Lon-Zara's suggestions, I laid out for myself a real, "New Age Diet" and began to get accustomed to it by easy stages. Breakfast consisted of delicious fresh fruit with almond nut-milk, Lunch included a salad made of tender green leafy vegetables, sprouted alfalfa seeds, grated carrots, sliced cucumber and homemade salad dressing. Untoasted wheatgerm was sprinkled liberally over this salad, and the result was a most delectable dish. Supper comprised a different kind of fruit with more of the nut-milk. This in brief, was my basic program. I began to prefer it to my "old" ways of living and eating.

During the day, I tried to imagine how it would be to live on a planet where negative conditions no longer exist to hamper human progress. Venus must surely be such a planet. Somehow, the great and wise Lords of Venus had discovered the secret of developing a truly constructive, creative and Godlike race of beings. What that secret might be I could not guess. No doubt it was based on the practical knowledge and application of the "Trinity Principles", Life, Love and Light. Then too, Venus is Earth's elder sister. Inhabitants on Venus have had millions of years more time than we, in which to develop and practice their Secret-Science.

EARTH IS A HARD SCHOOL

I thought of the many "negative ordeals" we Earthlings go through while we are here on this planet. The list is long and impressive. But it all adds up to a great big negative. To mention only a few of Earth's extremely undesirable conditions, consider: DISEASE (a vast host of ills which cut man down in his very prime), FACTORY STRIKES, (people out of work for weeks at a time) LAYOFFS, (good workers fired because of a decline in business, or because the company thinks a younger man or woman can do the job better) MONEY INFLATION (in which the purchasing power of the dollar becomes less and less) TAXES, NATIONAL DEPRESSIONS (~~the fact that money is hoardable and earns interest for you if you keep it out of circulation depresses the economy of the nation and creates debt. Idle money creates poverty, envy, hatred and war~~). A host of ills.

Then there is the problem of SMOG in cities like Los Angeles, San Francisco and others. This is a negative condition that as yet has not been solved by our scientists. Yet SMOG has been proved a serious factor in undermining the health of men, women and children. Those whose livelihood depends upon working in such cities have to remain in them and "put up" with the breathing of polluted air. The WEATHER DISASTERS take their toll of human lives as Earthman has no real control over the weather and can only try to protect himself against the freezing cold of blizzards, the lashing fury of hurricanes, tornadoes and floods which manifest on Earth many times every year. CRIME also, in a multitude of forms takes its heavy toll not only of human lives but also of man's peace of mind and soul, hourly on the globe.

FOOD PROCESSING is another negative factor in Earth-life. God's naturally vital, nutritious foods of the Earth are taken by man and subjected to ungodly processes such as pickling, roasting, toasting, boiling, freezing, dehydrating, pasteurizing, frying and so forth until modern man is hard put to it to find food that still has LIFE left in it. Happily, the "Organic Movement" is growing in popularity in the U.S.A. and this is a big help. It believes that food should be grown in rich, organic soil and that the use of chemical fertilizers

and poisonous sprays should not be used. The ever-present THREAT OF WAR is with us Earthlings, to increase our miseries. People of America live in fear of being blown to bits by atomic, hydrogen bombs from Russia. As for the people of Russia, they live in fear of being disintegrated by hydrogen bombs shot from U.S.A. Both sides are working overtime to make more bombs and guided missiles "just in case" a push-button war should rear its ugly head.

It would be easy to list many more conditions on Earth that humanity finds exceedingly unpleasant, if not entirely "Hellish". However, there's no need to go into grim details. You know them as well or possibly better than I do. The only conclusion is, our Earth IS a hard school. And for just this very reason, those of us who graduate from Earth's "School of Hard Knocks" will be more spiritually powerful than those under favorable conditions on other planets who haven't yet learned how to MASTER all that is negative.

After I'd finished my day's work, I enjoyed a simple, wholesome and delightful supper at home, and then began my usual preparations for Telehot communication with Lon-Zara. I looked forward eagerly to hearing about the Venusian mode of life, and how it compared with our own life on the Earth. At 6:30 P.M. I made mental contact.

"Greetings, my Brother," came the velvet smooth voice of my Venusian Teacher, "I can see, by reading the electronic thought pattern of your Subconscious mind, that you have been thinking deeply today on the power and meaning of the THREE Principles. We are glad that you are beginning to apply the instructions given you, for it is by application of truths that you shall gain mastery of all that is undesirable."

"Yes, Lon-Zara," I replied, "your personal visitation last evening has expanded my mind and soul to a deeper understanding of all that you have told me. I am open to whatever you may wish to teach me, for I know that not only myself but all humanity on Earth are in great need of your Cosmic Wisdom. It is my innermost conviction that the Secret-Science of Venus can and shall assist in bringing the Positive conditions into being on this Earth. We are tired of living with FEAR!"

"Fear is one of the most damaging of the Seven Forces of Negative," said Lon-Zara; "yet it is easily subdued. To master fear, learn to see beyond it. Recognize some GOOD to come out of an experience of trouble and the fear of it will go. You must understand that there is only ONE POWER in the universe and it is good. Its three aspects you have already learned (Life, Love and Light). Now you must learn that you have TWO CHOICES to make in regard to the One Power. (1) You

may attempt to BLOCK its action through ignorance of its true nature, and (2) you may USE it to bring about an environment or situation to which you can react pleasantly and positively..

"If you are unwise and choose the first mode of action, the inevitable result will be unpleasant reactions such as Dis-Ease, Insecurity, and so forth. The One Power is still working but is being hindered and obstructed from its normal channels. This is the simple cause of most of the troubles of mankind on Earth today. They are trying foolishly to CHANGE the natural action of this One Universal Power. However, the One Power cannot be changed for it comes from the Absolute. Man's wrong use of it reacts adversely on himself.

"If you use wisdom and choose the second mode of action, you at once become a conscious cooperator in the GREAT PLAN, and then you will no longer suffer from the Forces of Negative for they will begin to vanish from your consciousness. Always remember that the One Power is always GOOD, even when it is being blocked by man so that it has to react negatively. For example, Sickness is good for you when you NEED it, It serves to help awaken you to Nature's laws of health. When you learn those laws and apply them, you get well. So you see the UNDESIRABLE NEGATIVE is good for you when you need it, but it is still better not to need it!

THE CENTRAL  
LIGHT OR  
DIAMOND STAR

"On Venus, all that your people of Earth consider negative, discordant and destructive has long ago vanished. Crime, Poverty, Wars, Disease, Old Age problems and numerous other unpleasant conditions do not exist on our planet. That is why we call it a 'Positive World'. Picture yourself living in a world that sees things AS THEY ARE instead of as they appear to be, and you will have some idea of the MAGIC LIFE that awaits you when you 'graduate' to Venus. What is our secret? We have found the 'DIAMOND STAR' within ourselves. Each of us--men, women and children--on Venus, has discovered that a CENTRAL LIGHT dwells at the center of our Being. This light is the Star of the True or Divine Will of the Universe. It is of the most intense brilliance, like a great Diamond. Each Venusian is taught how to find the Diamond Star. Then he or she freely places his personal will in line with Its Guidance. To us, anything else would be unthinkable and most foolish. Thus we become active and conscious cooperators in the Universal Plan.

"Therefore, on Venus, you will find no negatives to retard your forward progress into the GREATER LIFE, LOVE and LIGHT that you have yearned and prayed for so long. As you have already guessed, the average Venusian builds his complete expression around the three primary principles, and he does

this freely of his own choice. All actions spring from knowledge of these great universal principles. INTELLIGENCE is always placed before (given prime importance over) desire, so that desire becomes purpose, and each purpose is automatically in harmony with the Great Universal Will of the Creator of all. By putting intelligence before power, the result is always constructive and beneficent. By putting power before intelligence, the result is chaotic and destructive. Earthlings are only now learning this."

THE MAGIC OF  
POSITIVIZED  
INTELLIGENCE

"Is it really possible for humanity, even advanced beings such as your people of Venus, to so eliminate human errors that all their efforts are positive, constructive and in harmony with God's Will?" I inquired.

"Millions of years ago," Lon-Zara began, "before the long and benevolent reign of Sanat Kumara and his Lords, our world was quite similar to your planet Earth. It was both Negative and Positive in its activity and expression. Our people had not yet learned the secret of HOW TO LIVE from a "Divine Center" within themselves. We did not realize consciously that a Positive world demands the development of Positive Intelligence. What is 'Positive intelligence'? It is simply the use of your reasoning faculties to guide and direct the two universal forces of LIFE and LOVE constructively, so that the result will benefit humanity rather than bring injury, suffering and death to it.

"On your planet Earth, Divine Love is not recognized, and fear rules mankind. Why? Because in place of recognizing LOVE as one of the primary universal principles and becoming channels for Its healing, harmonizing and sustaining power, the majority of Earthlings have substituted the LAW OF FORCE. Each man and woman seeks his or her own happiness, and forgets the existence of others. This is contrary to the COSMIC PLAN, for we know that each human being is like unto an individual brain cell of the SUPREME BEING, and by means of an inconceivable number of human beings on planets throughout the COSMOS (in our Galaxy alone--the Milky Way--an estimated 20 million planets are inhabited) ..... the ONE UNIVERSAL MIND IS manifesting Itself.

"Under the spiritual guidance of Sanat Kumara, the first Lord Thinker of Venus, our people at last saw the wisdom of living in tune with the Universal Plan, which required man to THINK and GUIDE the forces of LIFE and LOVE which already existed and were eternal in nature. What was the need of taking things by force from others? All we needed to do was PICTURE IN OUR MINDS the good things of life, and BELIEVE in the law of LOVE. To us, this meant harmonious, constructive and CREA-

TIVE ACTIVITY. An abundance of good things was thus easily produced, and wisely distributed by an economic system that requires no money, no trading, no exchanging of anything. It is neither Communism nor Socialism but a far superior system to anything the Earth has ever known. Not even your best 'Utopian' dreams had our plan.

"What was the use of hurting, deceiving, killing our fellow human beings, or taking the lives of animals for food? We saw that ALL of these life forms are part of ONE GREAT LIFE, in essence our own life. Why should we hurt and kill ourselves? We learned that LOVE never takes things apart; it only adds to them and holds them together in line with the COSMIC PLAN."

The Cities and Government on Venus are designed to conform to the laws and structure found in the physical atom.

"Then," I said, "your great secret is to live, create and build in conformity with the principles of Universal Will?"

"Yes. That is it. Venusians know that any other path is but an illusion. Let me describe our Cities to you. They are designed simply and in harmony with the structural principles of physical atoms. An atom has only ONE central nucleus from which the greatest positive LIGHT radiates out to the several electrons revolving about it. Venusian supreme government is based on this pattern. We have but one mighty Executive Center for the whole planet. At this Center, which is composed of three great circular, dome-shaped buildings made of a special crystalloid material, the Lord Thinkers dwell. They are masters of VITAL FORCE and are motivated solely by Love and Light. Their Intelligence, Executive Ability, and Soul Quality are the highest of all the beings on our planet.

"Extending outwards from this Central nucleus, like spokes radiating out from the hub of a wheel, are eight magnificent highways leading to eight great cities. Each of these Cities has four highways of its own, leading to four other cities, and each of the four cities has two highways leading to two cities. This pattern is continued around the planet."

"How interesting!" I said. "Would you tell me something of the physical features of your planet? And something of the customs of your people? I have supposed that your planet resembles the Earth in many ways."

"It does," said Lon-Zara, "with the exception that Venus is far more highly electrified than the Earth, and contains a greater relative proportion of radio-active matter within its nucleus or core. This causes our planet to emit a halo of radiant matter from its north and south poles. There is, however, nothing 'fiery' about this self-emitted planetary light. It is a phosphorescent glow similar to the 'Aurora Borealis and Australis' (Northern and Southern Lights) produced on your own planet Earth. The radiance is not hot, but cool. If you were in a spaceship at a height of 2,000 miles above Venus you would see this tremendous halo of brilliant light. It rests like a shimmering, rainbow-colored blanket over our peaceful world. At a distance of about 300 miles above the surface of Venus, this blanket of light merges into darkness. Yet beneath that light you could see the whole sphere of Venus illuminated not only by its own halo of self-emitted radiance, but also by the daylight produced by solar energy. The coloring of the cloud masses is breathtaking in effect. Gorgeously hued of iridescent colors and tints give the land areas below a spectacular beauty, far transcending that of Earth.

WHY VENUS  
NEEDS NO  
MOONLIGHT

"By day, this halo of self-emitted radiance about Venus becomes invisible, by reason of the overpowering brightness of the light produced in its atmosphere by electric energy from the Sun. But by night it becomes visible as Aurora, and provides a continuous light equal to that of the full moon on Earth. It is for this reason Venus has no moon, and needs none, for at night its light is supplied by its own self-luminosity."

"Does the luminous halo around Venus obscure your view of the stars and other heavenly bodies, from the surface of the planet?" I inquired.

"Scarcely at all. Not more than the light of the Earth's moon obscures the stars from the people on Earth. Now relax for a moment; hold the Telolith Stone to your forehead, and I will show you a view of our planet via MENTA-VISION."

I did so, and suddenly the full glorious scene burst upon my "mental screen"! I could see the surface of Venus clearly as though I were above and looking down at it. I watched, spellbound by the beauty of the awesome sight. Great mountains, forests and valleys were revealed to my mind's eye. The coloring of everything was magnificent, with pastel pinks, greens, yellows, and blues predominating. Oceans, rivers, and lakes much like ours, but the coloring differed. Lush vegetation covered the great valleys. I saw that the homes and buildings were constructed differently than ours. Homes were mostly single-story dwellings located some distance from the cities. The design was not always the same, but circular

dome-shaped homes seemed to predominate. These appeared to be made of some kind of translucent crystal or plastic substance. Each home occupied a large, individual area of land. I noticed that many people built beautiful homes on the mountainsides, similar to our custom in the Hollywood Hills of California. A great network of highways was observed, with numerous vehicles moving at tremendous speed over them. Most impressive to me were the spacecraft that dotted the skies above the planet. Some were cigar-shaped, some spherical like a miniature planetoid, some bell-shaped, and some in the simple shape of discs. In size, some of the wondrous vehicles exceeded 1000 feet in diameter. This, then, was my visual impression of Venus. In comparison to the Earth, Venus has more land area; while the Venusian oceans, though deeper, cover a somewhat smaller proportion of the surface.

The scene was thrilling beyond words, but lasted only a few moments and then faded out. Lon-Zara spoke.

"Creative activity is the keynote of our planet. There is no reason for our people to be idle, bored, or discontented, for each individual knows that he or she is an integral part of a great and noble CAUSE. The system, like man himself, is in a process of ever-becoming more and more perfect. However, the basic structure of our system is built upon universal principles in the same way that an atom is built. It is for this reason that CIRCLES predominate in all of our buildings, cities and in our spacecraft. Venusians as a race of people are highly industrious, but in an artistic and deeply creative way. Our system develops more real INITIATIVE in the people, stimulates them to serve and uplift one another by giving them an, INCENTIVE far more powerful than money. I shall explain here briefly that this incentive is a quicker promotion to the Kingdom of the Sun, for those who serve most abundantly. This is a more glorious reward than any money.

"Each man, woman and child of Venus realizes great benefits through service rendered in relation to others. But you must understand that this service is not in any way compulsory but voluntary. And it is mostly mind and soul activity. Free Energy--derived from Solar Light Energy--provides our entire planet with power that has no limit and costs nothing except the VITIC effort required to channel and direct it.

"The land vehicles you saw on the highways of Venus are powered by magnetic light engines. They are absolutely silent and carry a force field of energy which protects the passengers against accidents, even at tremendous speeds.

"There are no jails on Venus, since crime is inconceivable to sincere beings whose soul development matches their mental and physical development. The Lord Thinkers require

what we call 'Trinity Ratings' of each citizen several times yearly. This shows the following data: (1) Intelligence or 'IQ', (2) Executive Ability, and (3) Soul Progress. Persons whose Soul Progress Rating falls below a certain level are given special assistance so that the Rating is increased.

"We have no hospitals on our planet, for each man and woman has his own 'Doctor within', and relies implicitly upon that healing force to keep the balance always in favor of health. Our very way of life builds positive health, for we live mostly out-of-doors in the sunshine and fresh air. And we eat foods that have been super-energized by the sun. Our food comes primarily from tree crops which provide us with a variety of sub-tropical fruits, nuts and, yes, beneficial teas. No animal foods are used except honey, for there are no cattle on our planet. Nor are there any carnivorous animals.

"Animals are not used for food nor for service, by Venusians, and as a result have virtually disappeared from our planet. However, our world has an abundance of seed-eating song birds with beautifully colored plumage. Also our planet has industrious, useful insects such as the bee and ant. (Author's Note: The bee and ant were brought to the Earth by Sanat Kumara, Lord Thinker of Venus, 18,000,000 years ago.)

"Although we have no hospitals, as such, on Venus, we do maintain special HEALING CENTERS wherein the individual is taught the power and application of LIFETRONIC HEALING, as well as the use of Color, Sound (Music and personal key vibration or ray) and Perfume. Lifetronic Healing pertains to a MENTAL method of healing one's own body or that of another, by means of 'Life-electrons' and Life-vitrons which are universally present in all space. A veritable 'stream' of these 'energy units' can be so directed mentally, that they will flow at once into the body or out of it at the command of the healer. Lifetronic Healing has superseded 'materia medica' and surgery on Venus; for by our mental direction of 'Life-trons' we are able to alleviate pain, restore physical and vital balance, and heal wounds instantly.

"Now, Michael X," said my Cosmic Teacher, "we shall discontinue our telepathic communication for tonight. Tomorrow evening I shall reveal much new information to you. It will relate specifically to the strange and powerful phenomena of SOUL POWERS now possessed by the highly developed Venusians. Ponder carefully the steps we have covered up to this point, for the next step will be truly understood only when you have mastered the teachings you have already received. I bid you good night, Beloved Friend!"

## VENUSIAN SECRET POWERS

### Lesson 6

In accordance with Lon-Zara's suggestion, I made a careful "review" during the next day, of all that I had been taught regarding the SECRET-SCIENCE thus far. To my astonishment and delight, I discovered that my ability to grasp and understand the important rudiments of the "science" had greatly increased. There was a directness and simplicity to this new way of thinking, living and loving. I felt that I was soon to receive new and greater revelations from Lon-Zara that would open up to me startling and unrealized vistas of the powers dwelling within each true child of Nature.

That evening, contact by Telethot was again resumed with my teacher from Venus. Because I sensed that this new "lesson" would be on the vital subject of Venusian Soul Powers, and their practical methods of development, I had prepared a number of questions which I asked of Lon-Zara. The answers he gave to these questions proved to be not only quite astounding, but most interesting and enlightening as well. I have listed the Questions and Answers by number for MAGIC OF THE your convenience in studying them.  
TWO PRIMAL ELEMENTS

Q. 1.--"You have previously mentioned the two Primal Elements, Electricity and Viticity. Am I correct in believing that these two Primal Elements are the basis of all material and mental phenomena?"

A. 1.--"It is so, Beloved Friend. All things, both inanimate and animate--all matter, mind and soul--are made up of the two primal elements, Electricity and Viticity; and these in their ultimate nature are units of vibratory energy or if you prefer, vibration of the One GOD-SPIRIT."

Q. 2.--"What is the source of these universal vibrations?"

A. 2.--"The Great Central Sun at the vortex or hub of the Cosmic Universe, under the mental direction of the Supreme Being, revolves in space. In revolving, it produces electrons and vitrons which move outward from the center to fill all of space. Space is charged with these two Electric and Vitic units of vibratory energy, and since the Great Central Sun is constantly turning on its axis, more and more energy units are being produced. Hence the Cosmic Universe, though finite, is ever expanding."

Q. 3.--"What is the characteristic quality of each of these two Primal Elements? Also, how may I understand the separate functions of Electricity and Viticity?"

A. 3.--"The two primal elements each have the quality of ENERGY. This is due to the fact that the units of Electricity and Viticity, namely the electrons and vitrons, are in a state of continual vibration. Now let us see what causes electrons and vitrons to vibrate. The electron (unit of Electricity) is always polarized into positive and negative forces called 'ions'. The unit of Viticity, the vitron, is polarized into positive and negative forces called 'vions'.

"The positive ion of Electricity is attractive in force, and the negative ion is repulsive in force. But the vions of Viticity show a REVERSE polarization. The positive vion being repulsive and the negative vion being attractive.

"The two opposing ions of Electricity in the electron are never entirely separable, and so are in constant agitation, waging as it were, a kind of warfare. This continual agitation of the opposing forces (attractive and repulsive) in each electron constitutes 'electronic vibration'.

"It is important for you to know that the opposing vions in each unit or vitron of Viticity are likewise never entirely separable. Hence they also are incessantly exerting upon each other their opposing energy, thereby causing the phenomenon of VITIC FORCE, or 'vitronic vibration'.

"If an electron acquires a larger number of positive (attractive) ions, and has a smaller number of negative ions (repelling), then it is known as a Positive Electron. But if an electron accumulates more negative ions than it has of positive ions, then it becomes a Negative Electron.

"This applies also to the vitron. If a vitron has a greater quantity of positive vions in proportion to negative vions, then we call it a Positive Vitron. If it accumulates more negative vions than positive, we term it a Negative Vitron. In nature, that is, Universal Space, these two primal

elements of Electricity and Viticity produce phenomenon which is either positive or negative in effect. Electricity for example, causes two different kinds of electrical phenomena according to whether the electrons are positive or negative. On Venus, Electricity is classified thusly:

character; whereas the phenomena of Viticity are always MENTAL, VITAL and SENSORY in their effects. VENUSIAN SCIENCE classifies the phenomena of Viticity as follows:

Q. 4.--"Electricity then, is, broadly speaking, the substance of all matter?"

A. 4.--"Yes, and the second primal element, Viticity, is the substance of all life, mind and soul."

Q. 5.--"Do the two primal elements mingle with each other in Nature, or do they remain separated from each other?"

A. 5.--"They always accompany each other and are always united and commingled in greater or less proportion. Just as the positive and negative ions in an electron are never entirely separable from each other, likewise the ELECTRON and the VITRON are never entirely separable. Together the tiny but powerful units of Electrical and Vitical energy--the electron and the vitron--perform their different functions throughout the Universe, and together they create and constitute all that is."

Q. 6.--"What happens when Electricity preponderates over viticity in any form of matter or phenomenon?"

USE OF MIND  
WITHOUT THE  
LOVE-FORCES  
OF THE SOUL  
NEVER LEADS  
TO MASTERY.

A. 6.--"When the accumulation of electrons exceeds that of vitrons, the two primal elements manifest as 'electro-vitrons'. Conversely, if the proportion of viticity is increased so that it preponderates over electrons, then the electro-vitrons are at once converted into 'vitro-electrons'. On Venus, we have discovered that the converting of electro-vitrons into vitro-electrons may be accomplished by MENTAL CONCENTRATION and the direction of elemental SOUL-FORCE; namely the Positive, Attracting VITRONS. Thought-force alone can move nothing. Soul-force must be utilized in all higher creative processes. When the mighty Avatar Jesus came to your Earth, he revealed this truth to you when he said, 'Which of you, by taking thought (alone) can add one cubit to his stature?' Herein we find the cause of most Earthmens' misfortunes. He imagines that thought-vitrons are more important to him than soul-vitrons. This is quite a serious mistake as he shall come to realize."

Q. 7.--"Can you reveal to me the essential differences between an Earthman and a Venus man?"

A. 7.--"The difference is primarily in the degree of SOUL POWER and WISDOM possessed by each being. The average Earthling does not live from his or her true Soul Center. Instead, he worships the false gods of POWER, PASSION and PRIDE. You see, the qualities of Power, Passion and Pride have two aspects, one is destructive and the other constructive. Those Earthlings who worship MATERIAL POWER as exemplified by the

atomic bomb, guided missiles, guns, etc., and who display a PASSION for remaining ignorant of the higher laws of the Universe, and who take great PRIDE in their ability to injure or kill other living creatures, are using the destructive or negative aspects of the great trinity. This results in conditions which you would term HELL.

"If the human rulers of Earth, and the mass-minded, would reverse their attention from the negative to the positive aspect of Power, Passion and Pride; by desiring the power of LIFE more abundant, and developing a worthy passion for LIGHT of Cosmic Wisdom, and taking a genuine pride in their ability to LOVE and sustain all of God's creatures, they would thereby manifest the New Age conditions of HEAVEN on Earth.

"Earthman is far overbalanced in his development of 'Material Power, Passion and Pride', and considerably underdeveloped in 'Soul-Power, Passion and Pride'. The first is the negative or destructive aspect, the second is the positive or constructive aspect. We may illustrate this by picturing a simple balancing scale, as follows:

"Now let us illustrate the status of VENUS MAN:

"Notice that VENUS MAN has greatly increased his SOUL POWER, enabling him to wisely govern and BALANCE material Power.

The spiritual aspects of LIFE, LOVE and LIGHT are well understood by Venus Man, and are expressed through the higher SOUL QUALITIES, or powers. Hence, Venus Man is able and ever willing to assist Earth Man in the unfolding of SOUL POWERS. For as you have seen, material power can only be balanced by the higher God-Sense (sense of GOOD). In this fact lies the special relationship that exists between Venus and Earth. We of Venus are one step beyond your evolutionary status, while the people of Mars are one step below your level. Mars cannot assist you in an upward direction, while Venus is able to."

Q. 8.--"Will you describe briefly these higher powers?"

A. 8.--"Yes; however, I wish to state first that every individual on Venus fully recognizes the divine origin of these SOUL POWERS, and is taught the proper use to be made of them. Also the manner in which to proceed for obtaining the required results so as to avoid all harm and obtain nothing but good.

"On Earth, the Conscious mind is deemed the 'normal' mind. But in truth, this phase of mind is extremely limited in its power to know and recall information. Also, you will note (from diagram on Viticity) that the Conscious mind is obliged to draw upon the SOUL-MIND or Subconscious, for information contained in the Subconscious Memory and Intellect. The Soul-mind consists of Positive Vitrons which are attractive in nature, hence able to attract and tune-in upon negative vitrons anywhere in the universe. When Earth Man uses only his Conscious mind and ignores his Soul-mind, he is unable to accumulate sufficient vitic-force to demonstrate the higher powers of Soul. This blocks his Soul Progress.

"On the higher plane of intellect and mentality which prevails on Venus, the powers of the Soul-mind to reach out and acquire knowledge through the 'mental senses' are greatly enhanced. At the same time, however, the capability of the Conscious mind to assume and maintain the 'subjective state' (and thereby acquire and utilize the vast resources of knowledge possessed by the Soul-mind) is greatly increased. Thus on Venus the 'normal mind' more nearly approaches the SUBLIMINAL STATE OF MIND, or more simply, the Subliminal mind.

"The secret science of Venus, in its ultimate sense, consists in the intelligent utilization of the Soul-mind by the Conscious mind. Startling SOUL POWERS as yet undreamed of on Earth, are manifested by Venusian men and women because all these higher phenomena are a direct result of SUBLIMINAL MIND activity, and on Venus the Subliminal Mentality is well developed by all. In the Subliminal state, negative vitrons act upon the positive vitrons of the SOUL, which in turn react upon the electrons of matter. Thus we control matter.

"Now as to the actual powers, you are already acquainted somewhat with Telethot (Clairaudience), by which we are enabled to hear the sounds of things and voices of persons, not only far beyond the ordinary range of hearing, but from other planets millions of miles distant from our own. We also receive as by a voice speaking to us, answers to all sorts of questions.

"Menta-Vision (Clairvoyance) or the faculty of mental seeing, is very closely allied to Telethot; for these senses work in a similar manner. In Telethot, the Soul-mind reaches out by vitic induction, and brings back to the physical brain the vitical vibrations of the sounds and voices emanating from other persons with whom we are in mental attunement. In Menta-Vision, the Soul-mind ventures out (extends into space) by vitronic energy, until it comes into vibratory attunement with similar vibrations of persons at any distant point in the Solar System. Then it brings back through reverse induction of the vitrons, a living PICTURE of absent persons, scenes or events that are transpiring at any location in the universe to which we direct our mind.

"We also make use of the faculty of Microscopic and of Telescopic sight, by which we are enabled to see the most minute and the most distant objects with the naked eye, as though we were looking at them with a microscope or telescope.

"Mind-Reading is one of the simplest mental phenomena, and is commonly practiced on Venus and on all the more advanced planets. All advanced Space-beings can read the thoughts of each other, thus making the mind an 'open book' to those who understand this process. Where the mind is an open book there can be no deception. Deception breeds fear. Venus has no fear because it has no deception and has developed such immense SOUL-FORCE that any outside evil can be NEUTRALIZED instantly by the Lords of Venus. Like all other mental phenomena, Mind-Reading is accomplished through the utilization of Viticity. It involves both telepathy and the reading of knowledge stored in the Subconscious of other persons (or a particular person). In this process, we project the vitronic vibrations of our own Soul-Mind into the Soul-mind of the subject, so that the vibrations of the two Soul-minds commingle with each other. We may then become conscious of and utilize the thoughts contained in the Soul-mind of another person.

"Our intellectual powers are vastly extended, by the manner in which we are educated on Venus. We learn all our lessons in the SUBLIMINAL STATE OF MIND, which does not weaken or in any way injure any sense, faculty or function of the 'outer' or physical being, but rather increases our powers and brings them to the highest degree of organic perfection.

"Students on Venus are able to record instantaneously, knowledge or data from any book by a process we call 'psycho-typing'. A mere glimpse for a single second at any page in a book is sufficient for the students to retain in their memory the whole contents of it. By a slight extension of this faculty, the students obtain references from and even the perfect knowledge of, transcribed works which are known to exist in certain libraries at far distant places.

"The students are also able, by soul power, to identify themselves perfectly with everything belonging to the places spoken of in their study of Geography, Geology, etc., so that they feel as though they are on the actual spot mentioned. They appear to themselves to be, not where the lessons are conducted, but in the very places being studied; seeing, hearing and feeling all they are required or desire to see, hear or feel. This, as you will at once realize, makes the education of our young people of Venus the easiest of all things --real amusement and recreation--instead of being, as it is now on planet Earth, a slow, tedious and fatiguing process.

"On Venus, for many ages, the principles of Levitation (overcoming of gravity) and Psychokinesis (moving of material objects by mind) have been commonly applied for such practical purposes as in the lifting of heavy and ponderous bodies; in excavating and removing soil and rock for structural building, in personal transportation of a limited nature where only the human body is used as the levitated conveyance; and in aerial navigation by means of small or large spacecraft."

Q. 9.--"Your Flying Saucers are not affected by the gravitational pull of planets, stars or suns?"

A. 9.--"Each Space Disc creates its own artificial gravity by means of gyroscopic rotation and a force-field of Negative Electricity. Planetary gravity pull is thereby nullified. The source of ENERGY used to operate the disc comes from the SPACIAL ETHERS which as you now know, are composed of the primal elements: Electrons in combination with Vitrons. By directing electrons from space to produce a force-field of electro-vitronic LIGHT, we generate paramagnetic (attractive) and diamagnetic (repulsive) forces which can and do impel the Disc at speeds approaching that of light itself. All that is necessary to move matter by thought force (vitic energy) is to be able to accumulate a sufficient amount or 'potential' of that force. The great KEY to this problem lies in the use of special CRYSTALS that not only can accumulate vitrons, but focus and intensify their power as well. Spaceships are directed by VITICITY. Therefore the 'heart of every vehicle is its VITRONIC ACCUMULATOR. It is

is composed of a series of these CRYSTALS. They glow with a dynamic yellow luminescence when activated. What activates them? The vitrons which the Subliminal-mind of the Space-pilot directs into them from SPACE itself, using his own mind as the directive channel for the universal energy."

Q. 10.--"Is it true that Venusians are able to TELEPORT?" (dematerialize the material body and rematerialize it again at any other desired point in space.)

A. 10.--"Yes, Teleportation is understood by the higher beings on Venus. It is, however, practiced only by our adepts who have attained to the higher frequency of the Fourth Density. At this level the Solar Body of the Adept has been completed but still not perfected. You will understand this more easily if I recall to your mind the various vibratory levels or 'frequencies' of the human body. The grossest physical human body vibrates at the lower frequency of the Third Density. Such an individual is very coarse, stupid and animalistic in his expression and appearance. As the vibrational frequency is increased or raised, the human body becomes more sensitive and its electronic matter becomes considerably finer. When the higher frequency level of the 3rd Density is reached by man, he is ready for life on Venus, where he begins on the Lower frequency of the Fourth Density of vibration. Venus Man then progresses upward from the lower frequency of the 4th Density to the higher frequency and then becomes a master of Teleportation. He or she is then ready for higher life on the next advanced planet, Mercury. The higher the vibratory frequency attained, the easier it is for a body to function in any particular Density. As you gradually progress up through densities 3, 4, 5, 6, you realize more and more freedom in your functional power. The final step is the 7th Density of vibration. This is the high vibration of the Solar Body and must be achieved in order to take up your higher level of life upon the Sun."

After answering the above questions Lon-Zara terminated our mental communication for the evening. The subject of the next evening's lesson, he informed me, was to be "The Beings Beyond Venus". Who these Beings are, where they are located, and how they became the wonderful individuals that they are, would be made known to me. Moreover, humanity's true home--the SUPREME STAR--and some of its wonders, would be one of the important subjects of tomorrow's lesson. In a delightful state of joyous anticipation, I expressed grateful thanks to my Venusian teacher and retired for the night.

### SPECIAL QUESTIONS

The theme of this Sixth Lesson suggests the following five important Questions:

1. What is the name given to a unit of Electrical energy, and a unit of Vitical energy?
2. When Electricity consists of Positive Electrons it produces \_\_\_\_\_ phenomena.
3. When Electricity consists of Negative Electrons it produces \_\_\_\_\_ phenomena.
4. If Electricity is the "substance of all matter" what then is Viticity?
5. Material Power can only be balanced by \_\_\_\_\_ Power.

### SPECIAL QUESTIONS

(Study Lesson Seven First)

The theme of the Seventh Lesson suggests the following five important Questions:

1. Of all the bodies in the Universe, which is best adapted for the highest expression of human life?
2. What kind of beings live upon the Supreme Star?
3. Who are the Guardians of this Earth?
4. What is the glorious destiny of every perfected and matured human being in our Galactic Universe?
5. Who are the Guardians of this Universe?

## THE BEINGS BEYOND VENUS

### Lesson 7

"The Supreme Star" said Lon-Zara after telepathic contact had again been established on the following night, "is the home of the PERFECTED BEINGS of the Universe. Countless trillions of these Perfected Beings dwell on the Supreme Star at the very center or 'hub' of the Universe. Tonight I shall tell you about those wondrous Beings, and how your own glorious destiny is to become a Perfected Being. First, however, I will reveal to you some vital information about the mighty Supreme Star, which is perhaps known to you as the Great Central Sun. What I am about to reveal is knowledge of great cosmic magnitude. Yet you will find it quite easy to comprehend this teaching, for your mind and soul have been greatly expanded by the phases that have previously been given you.

"All the planets in our solar system revolve about a sun or 'fixed star', and all the stars revolve about the controlling Sun or 'Supreme Star' of the Universe, in a tremendously vast field called the 'Galactic Plane'. The Supreme Controlling Star is by far the largest and most highly electrified body of the Universe. This is because it was the first, and hence is the oldest body of finite matter in the Universe. On Venus, we have computed the diameter of the Supreme Star to be about 120,000,000,000 miles, or about 165,000 times larger than our sun. In mass the central Controlling Star exceeds the combined mass of ALL the other heavenly bodies; just as the mass of our own sun exceeds the combined mass of all its planets.

OUR TRUE HOME  
AT THE HUB OF  
THE UNIVERSE.

"The Supreme Star is by far the most perfectly adapted for the highest expression of human life of any bodies of the Universe.

It is so large as to seem almost a universe in itself. It is the abode of 7th Density Beings--the highest grade of human development, both physical and mental--and is the plane of Omniscience, Omnipresence and Omnipotence. This means that the Beings on the Supreme Star have attained to a knowledge of all things, have annihilated space and time so they can travel anywhere in the universe instantly, and have the perfected understanding of all Cosmic forces and can direct by mental means all powerful energies in line with the One Universal Will of the Supreme Being."

"Do these Perfected Beings have physical forms like our own human bodies?" I asked.

"Indeed they do!" my Venusian Teacher replied, "They possess a glorified body which is constructed of Permanent Atoms

from the Seventh Density. This is the substance of which the 'Solar Body' is built, and this body is not subject to death. It is immortal. In appearance, a Perfected Being is in the form of man, though taller and larger than Earthmen. Each Perfected Being is a distinct Individual, unlike all the other Beings, and is masterful beyond description. A powerful radiance of light surrounds the body of each of these royal and majestic Beings, and it is the combined intelligence of all the Perfected Beings which forms the Supreme Mentality at the center or hub of the universe.

"Each one of these Beings is a perfected expression or part of God, and exercises God-Powers by mentally controlling and acting as Guardian of great planets, stars and suns in the Universe. This great work is carried on under the mental direction and control of the first Perfected Being who is known as the Supreme Being. The Supreme Being is our Heavenly Father from whom all Human Life Waves originate. Since the 'point of origin' for all humanity was the Supreme Star or Great Central Sun, we must each of us find our way back to that central point. We shall then be truly 'back home' with our true Father and all our glorious true friends, the Perfected Beings. Only then is man's pilgrimage ended.

"This goal;" I said, "is it to be accomplished by a gradual ascending of each human soul in an UPWARD progression via the SEVEN PLANETS and the SEVEN DENSITIES?"

"Yes, Beloved Earthling," replied Lon-Zara, "as human life advances from one planet to another, the Conscious mind comes more into vibratory rapport with the coordinate Soul-mind. The Soul-mind in turn, acquires more and more intellect and power of understanding, until finally, the Soul-mind becomes possessed of Omniscience, Omnipresence, and Omnipotence. (Every Soul is seeking this Mastery.) When the Children of God shall have reached the 7th Density and become Perfected Beings of the Sun, their Conscious minds will then be capable of expressing their higher powers and of utilizing them wisely. Solar Citizens are then free to return to the Supreme Star if they so desire. This is the GREATEST REWARD bestowed upon a Soul: to travel HOME to the golden and magnificent Supreme Star, the greatest body in the Universe!"

#### OUR GALACTIC UNIVERSE IS A GIANT SPACE DISC

"This Galaxy--The Milky Way--in which our solar system is located, is shaped like a gigantic Space Disc. (See illustration on next page) And, like a Space Disc, there needs to be a central intelligence within the Disc to operate and control it in space. This 'Controlling Center' is the Supreme Star, from which the Supreme Being applies the great mental force of Viticity to control all within this universe.

"The Milky Way"

Showing the oblate, disc-like shape of our Universe (The Milky Way). Note that the Universe is like a giant cell or atom, with central nucleus controlling it. The entire system maintains perfect equilibrium in space by whirling in a counter-clockwise direction, causing gravitation. Note other Galactic Universes in space.

Diagram  
Polar View

Showing relative distances and location of the stars in this Universe.

"Through the mental and soul-powers of the Supreme Being the Supreme Star is caused to rotate upon its own axis, and through the mighty physical electro-dynamic effects of such rotation, all the other stars of the Universe are propelled in their orbits around the Supreme Star. This causes them to rotate, in turn, upon their own axes, thereby extending the electro-vitic forces of the Supreme Sun throughout the Universe. Thus each sun helps the Supreme Sun distribute its light and energy throughout the Universe.

"All is accomplished in perfect rhythm and with perfect precision under Supreme mental control of the Supreme Being and His assistants, the Perfected Ones, who direct the mighty motive and creative forces which are inherent as vibratory energy in the primal elements.

"By means of the Supreme Sun's electric and magnetic forces, applied through the process of its own revolutions upon its axis, each sun, planet and asteroid in the Galaxy is rotated upon its axis, and moves with tremendous speed through the orbit in which the two opposing forces (attractive and repulsive electromagnetism) from the Supreme Sun maintain it. Each body in turn thereby becomes an 'electro' and 'vitro' magnet in the Galaxy."

WHO ARE THE  
GUARDIANS?

"Then these Perfected Beings," I said,  
serve the Great Plan by acting as Overseers or  
Guardians of the various planets?"

"They are greater than planetary Guardians." Replied the Venusian teacher. "Planetary Guardians come from the suns of solar systems, and from the next higher advanced planet in the system. For instance, Venus is the home of the Lord Thinkers who act as Guardians of the Earth. It is for this reason that great Conferences are held on Venus periodically. Many higher beings attend these Cosmic Conferences, beings who live on our sun often appear. These are the principal planetary overseers. Perfected Beings who dwell on the Supreme Sun are Guardians of the Universe as a whole, and when they have served in that higher executive capacity for a sufficient length of time they earn the most glorious privilege of creating, energizing and ruling a complete Universe of their own. As you realize, the Galactic Universe in which we live is only one of many such Universes in space. Each must have its own central government of intelligent, Perfected Beings.

"Are these Perfected Beings known as Masters?" I inquired of Lon-Zara.

"They are Masters of Matter and Life, but they are known as gods (spelled with small g) when they have attained to rulership of stars and sun systems and Universes. What we think of as God (spelled with capital G) means the great assemblage of Perfected Beings in all the Galactic Universes throughout the Cosmic Space. This is the Supreme Intellect of the Cosmic Universe. Not One, nor Two, nor Three personalities, but a great multitude of Intellects who are ONE IN PURPOSE. This great assembly of GOD (Great Omnipotent Dynamo) is made up of all the perfected and matured human beings who have advanced from one planet to another through each succeeding grade of knowledge, and finally reached the Supreme Star--and in so doing have encompassed all knowledge and become Omniscient. This is our glorious destiny and reward. Every human being, as a 'child of God', after having lived a series of lives in human form upon ALL of the humanized planets in our solar system, and then upon the sun, will eventually become one, in knowledge with the Supreme Intellect. Each one of us will then participate, as one of the brain-cells of the Supreme Mind, in the further formation and direction of the Cosmic Universe. Upon reflection, it will be recognized that instead of detracting from the superlative character of God, this concept only serves to magnify the glory of the Divine Personality. For after all, the higher mind and soul of man is truly a 'living spark' of the Divine Spirit! And, in the light of this truth, all humanity becomes blended in unity. Would that they could all expand their conscious understanding of the Great Plan!

"Now, Michael X, I bid you take these teachings and reveal them to your faithful friends, even as I have revealed them to you. Let each individual start at once, right where he or she now is, and bring LIFE, LOVE and LIGHT ever more abundantly into the daily life on Earth. Let LOVE be the guiding principle that opens all doors for you, heals all inharmonies, and lifts you into that higher consciousness where you become literally 'one of us'. Do not be dismayed by the vast extent of your Great Cosmic Journey. Take one step at a time; master that, and the next phase will unfold. Look UPWARDS always, never downwards. Continue to raise your personal vibrations to a higher frequency day by day by thinking of us and our Secret-Science. Apply our instructions to the best of your ability, and when the Great Day of Graduation arrives, we shall welcome you with all our love and joy. On behalf of myself, Shelana, and the Lords of Venus, farewell! Unveil our 'Science' to Earth's humanity, now. When you have succeeded, we shall meet again."

With that, our contact by Telethot was broken and suddenly all seemed blank and empty before me. Deep within me, I knew that this feeling was only temporary. I would hear from Lon-Zara again. Until then, the glorious memories of my thrilling experiences--sighting the Space Disc, meeting both my Teacher and Shelana, seeing Venus by Menta-Vision, and so forth--would never be forgotten. Truly, there is no ceasing of wonders for New Age Individuals! What great adventures would shape themselves into the coming months? Time and the Space-Beings held the precious secret. As you may well imagine, in spite of my fatigue, I did not go to sleep very early this night. I walked up and down in my room, thinking over the events of each memorable contact. The mere thought of how greatly I had been privileged, moved me to the very depths of my soul. As I walked about the room I observed a Bible lying upon my desk. I did not remember placing it there. Obeying a strong impulse, I opened the Bible at random and my eye fell upon the second Chapter of Revelation to where it said: "And he that overcometh, and keepeth my works unto the end, to him will I give POWER.....And I will give him the MORNING STAR!"

THE END

"HOW MICHAEL X CONTACTS THE SPACE-BEINGS"

In my search for a simple, practical and positive aid whereby I might contact flying saucer beings, as well as human intelligences living on other planets, I was led to the study and use of "Psychic Stones" or "Gems". By nature, my psychic or sixth sense is developed considerably beyond that of the average person (for which blessing I am most grateful), however, I have found that if one desires to reach mentally into outer space, and communicate with advanced beings by Telepathy, it is necessary to make use of every aid that will stimulate and increase one's telepathic power.

More contacts with Spacemen are being reported here in California than any other state in America, and in my opinion, this is due to the fact that a psychic stone, known as a TELOLITH, is being utilized by more and more persons here as an aid to ESP (Extra-Sensory Perception) development.

If you have never used a TELOLITH psychic stone, it is important to know something about the stone itself, what it looks like, where it may be obtained, and most important, HOW to use it for best results. I shall briefly describe the stone for you, and then give you the secret instructions for its use in Telepathic contacts. Bear in mind as you read, that I attribute my personal success in "OSC" (Outer Space Communication) to my diligent and faithful use of a TELOLITH psychic gem. Of course, there are other important secrets to observe if you are sincerely desirous of mentally contacting a Space-Being. These secrets will also be made known to you in this report, which, to my knowledge, is the first time this information has been made available to sincere seekers. May it open NEW DOORS of truth to you!

The TELOLITH is a rare boron crystal small enough to hold in your hand or carry in your pocket. It is translucent in appearance, usually in an unpolished natural state and may be of different shades of color depending on its environment. It is unlike most other stones in the fact that it possesses an enormous aura, or field of electro-vitic radiation. This "aura" around the stone, though invisible to ordinary vision indicates that the stone contains unique VIBRATORY QUALITIES. These vibrations from the stone are of a very high frequency, and for this reason the TELOLITH acts to "step-up" the sensitivity of your physical body (particularly the Pineal and the Pituitary glands which are the 'psychic organs') so that you

become more easily and quickly "attuned" to the thought vibrations constantly being sent to Earth by the Space-Beings.

Therefore a psychic stone will prove a positive aid in the reception of OSC messages, when properly used. But that is not all. It will also serve to focus and intensify your own telepathic powers, thus enabling you to transmit to and also to receive the thoughts of the Space-Beings. It is a well known fact that if you wish to project an electrical current to any distant point in space, you must first "step-up" the current to a higher voltage before you release it. Otherwise there is no power to effect transmission. That is why I use a TELOLITH gem. It assists me to build up and intensify my MENTAL FORCES so they become very strong and positive. Other psychic gems may work as well as the Telolith for this purpose and are worth testing. Edgar Cayce, the famous psychic reader (see book "There is a River" by Sugrue) advised the use of a stone called Lapis Lingua or "Singing Stone". Whichever stone you may prefer, the same instructions for its use will apply. If you do not already have a psychic stone, THE GEM EXCHANGE, Gem Village, Bayfield, Colorado, will send you a price list and description of the various gems. A postcard to that fine company will bring a prompt reply.

Now for step-by-step instructions. They are not at all complicated, nor hard to follow, but each step is important.

1. CONSECRATION. Because the Telolith psychic stone has a positive-negative vibration, it is able to draw in as well as throw off subtle thought influences. It has passed through many hands before you obtained it, therefore you must first de-magnetize it, so as to banish all traces of the past vibratory influences which it contains. This is accomplished as follows: Take the gem up in your hands so that the fingers and thumb of your left hand hold one end of the stone, while the fingers and thumb of your right hand hold the other end of the stone. Now hold the stone quietly and think strongly of your highest ideal of LIFE, LOVE and LIGHT, for 5 to 10 minutes. This "demagnetizes" the Telolith of all low vibrations. After you have done this, set the stone down on a table and DO NOT TOUCH IT for ten full minutes. Above all, do not allow anyone else to handle the stone. At the end of 10 minutes, pick up the stone again, hold it as you did before in both hands, and breathe on it slowly. As you breathe, inject the full intensity of your mind and thought upon the stone, seeing in your "mind's eye" the words LIFE, LOVE, LIGHT as if they were being written, engraved or impressed on the Telolith stone. Do this for 5 full minutes. The Telolith is now charged with your own personal and highest vibrations. From now on allow no one but yourself to handle it, for strange magnetism will affect it negatively. Next comes the vital process of "Invocation".

2. INVOCATION. The Telolith is now ready for use in assisting you to raise and intensify your mental vibrations so that thought communication with the Space People will be possible. Invoking or calling the Beings is the next phase of this higher work. Invocation serves two purposes. First it will attune you with the higher consciousness of the Space Beings. Secondly, it will help the world in general. I have learned that it is unwise to petition these higher beings for merely selfish or material reasons. Requests should be only in regard to spiritual matters such as will advance the world spiritually. Also, an Invocation should never be made kneeling down, for the act of kneeling down lowers your whole vibratory consciousness, and may bring you into attunement with the lower worlds of beings. This is never desirable. The aerial spaces are thronged with countless intelligences, some good, pure, true, and celestial. Others are just the opposite. To reach the true and good ones--the high beings of Venus--your heart must correspond by invoking only the good, true and beautiful for noble purposes. Therefore it is best to stand upright, holding the Telolith in your right hand so it rests lightly in your open palm. Now LOOK UP and address the Space-Being (or Beings) silently and mentally. Do not speak aloud, for the spoken word is too Earth-bound. Instead, let your thoughts be from without inwards, from the material to the spiritual. Think from within, upwards, and always silently. Remember, the Beings are master telepathists. And they are looking for the aid of sincere Earthlings. Here is the Invocation I use to contact my Space Master:

#### SPACE-BEING INVOCATION

"O Cosmic Teacher  
of LIFE, LOVE and LIGHT  
from the planet Venus  
May the Spirit of Goodness  
manifest on this Earth  
as it does on Venus.  
May the positive powers  
of LIFE, LOVE and LIGHT  
overcome all negation  
and usher in the NEW  
and GOLDEN AGE."

"Through the magic of Mind  
reach out to me now  
in THOUGHT communion,  
that my soul may increase  
in Cosmic Wisdom and Love  
for the GOOD of all Life,  
and the glory of the GREAT LIGHT!"

Now you are prepared mentally and spiritually for.....

3. CONCENTRATION. Here is the method I personally use and which has proved most successful for me. When I desire to RECEIVE a message from outer-space, I hold the Telolith to my forehead just above and between my physical eyes. This place is directly in front of the Pituitary gland, the psychic organ of telepathic reception. By exerting a moderate, firm pressure over this area, I find that the vibrations of the stone act to "step-up" the vibrations of the Pituitary gland, thus aiding my ability to CONCENTRATE mentally on outer-Space Communications.

When I wish to TRANSMIT or send a mental message to my Space Master, I raise the Telolith to the top or crown of my head, and hold it there while exerting moderately firm pressure. The spot is directly above the Pineal gland, which is the psychic organ of telepathic transmission. By applying gentle pressure to the Telolith at this spot just over the "third-eye", I find that the vibrations of the stone aid greatly in focusing and intensifying my thought-force so that I can transmit my own thoughts more positively and with a higher degree of success.

Another secret method I use, is something my own Teacher revealed to me and which is known only to advanced beings. It is called the "Awareness Slide". I have drawn three diagrams

(Fig. 1.) RELAX

(Fig. 2.) SEND

(Fig. 3.) RECEIVE

to illustrate this. The idea is to "slide" the focal point of your mental awareness (mind) between the Conscious and Subconscious areas of awareness, depending on whether you are sending or receiving a message. Fig. 1 shows a thread with a bead on it which can move in either direction from the center. "C" indicates the Conscious mind, "S" denotes the SUBLIMINAL MIND and "SC" refers to the Subconscious.

Relaxation is needed first of all to enter the SUBLIMINAL STATE. Therefore I relax by hold-

ing a mental picture of the thread with the bead at the center of it, as in Fig. 1. Next, in order to SEND a message to my Space Master, I mentally move the bead toward "C" (Fig. 2) to allow my Conscious-mind to think of the thought I wish to project. As soon as I have formed the thought, I "slide" the bead back to the center promptly to point "S". From point "S" I mentally move the bead until it is between "S" and "SC" (Fig. 3). Now I am ready to RECEIVE mental communications from my Space Master. This secret method of using the "Awareness Slide" together with the Telolith psychic gem should greatly assist you in your understanding of "O.S.C." and enable you, with devotion and practice, to succeed in your noble purpose.

Sincerely Yours,

## SUPPLEMENTARY INSTRUCTIONS

The Venusians embody love and wisdom. If you will seek to emulate those virtues and embody them in your soul and personality, you will find that after a while you will bring yourself into that state where you will naturally create an AFFINITY between yourself and your Venusian Teacher. Then, by your love, your intense devotion, you will in time draw him to you so that he will help you upward on THE PATH. But remember, Earthlings can never command the Venusians. Venusians are amazingly above Earthman, having more powers of every description. (See Lesson Six.) We, therefore, can never compel them through any kind of willful thinking or feeling.

By becoming more harmonious, loving and passive--and by consistent use of the Telolith or Lapis Lingua psychic stone--and having the proper attitude of devotion to the Wise Ones, it will be possible in time to draw them to you by magnetic soul attraction. Not to compel them in any way, but to win their approbation sufficiently to accept you as a devotee of greater LIFE, LOVE and LIGHT; and in time they will appear to you. At first you will receive revelations and helpful messages from your Teacher during your nightly dreams. However, these dreams will not be like your ordinary dreams. They will be extraordinarily vivid and intense and impress you profoundly.

Whether or not you have as yet seen your Venusian Teacher, the fact remains that he does exist and is as real as you are. The Venusians (and the Mercurians) are actual living entities in masterful human form, and they have been helping Earthlings for countless centuries. Now let us sum up the elements that are most necessary to making a successful contact:

- First: A firm faith in the existence of the Venusians.
- Second: Intense devotion to their service
- Third: Positive love for them personally.
- Fourth: A harmonious, natural and meatless diet.
- Fifth: Great zeal in carrying out their instructions.
- Sixth: Regular use of a Telolith or psychic stone.
- Lastly: Infinite patience in personal soul development.

Contact will be made when your soul and its powers have reached the proper state of unfoldment. Do not seek to rush this, for it cannot be rushed. Be guided by these seven steps --banish all tendency to impatience--and like the rose, your soul shall unfold in great beauty. Be ready at all times to obey whatever prompting you receive from the Wise Ones; keep your faith firm, and by this attitude of communion and trust you may indeed be able to enter into communication with them in the wondrous and glorious NEW AGE of magnificent LIFE, LOVE AND LIGHT!
